**Alleged That \$10,000 or  
More Has Been  
Used Illegally.**

**WATER WORKS MONEY**

**Which It Is Claimed Cannot Be  
Turned Into General  
Fund.**

**A BIG SUIT IS PROBABLE**

Further developments have been brought to the surface through an extended investigation of the manner in which the present council and others serving the municipality during the past few years have conducted the finances at their command. As a result a sensation of no small proportions is likely to be sprung almost any time.

It seems that the present condition of the city's finances is due wholly to the misinterpretation of the provisions of the new code. There is no one harboring the least thought that the members of council are guilty of a premeditated act to misappropriate the funds of the city, but it is alleged by those who have taken the matter up that council has placed itself in a very embarrassing condition, and that unless the attorney general decides in its favor the members will be personally liable for a deficiency, the amount of which is not accurately known, but which aggregates in the neighborhood of \$10,000.

According to City Auditor Davidson the water works department has turned over to the city treasury something like \$15,000. Of this amount \$5,500 has been appropriated to the water works department for the purpose of running it until the first of next year. The remaining amount has been used by council, the most of it having been appropriated by that body to meet the general running expenses of the city. When the board of public service makes a formal demand—and it is understood that such a step will be made in a short time—for the \$10,000 or \$12,000 or whatever the sum may be, what is council going to do? How is it going to return the money? Being personally liable for any misappropriation, will it not be necessary for the members of council to go to their own bank accounts and make good the deficiency?

The action of council has been, ac-

cording to the auditor, based on section No. 43 of the code. This section, according to others who are deeply concerned, does not pertain to the water works department. A part of the section on which the question is contested is as follows: "Councils of cities or villages may at any time by the votes of three-fourths of all the members elected thereto, and the approval of the mayor, transfer all or a portion of one fund or a balance remaining therein to the credit of one or more funds, but there shall be no transfer except among funds raised by taxation upon all the real and personal property in the corporation."

The water works department is not operated by the funds raised from taxation. It is run by the revenues collected through the water works.

Judging from the above quotation that council has no right to confiscate the money of the water works department, the question is asked again, who is to repay the amount appropriated by council for the general running expenses?

That the water works department has distinct control of its funds is believed to be true from the following extracts of two sections of the Ohio laws: "If there is any surplus, after paying the expenses of conducting and managing the water works, and the repair of the same, such surplus may be applied to the enlargement or extension of the works of the reservoir, the payment of the interest on any loan made for the construction, or for the creation of a sinking fund for the liquidation of the debt."

"Money so deposited shall be kept as a separate and distinct fund, subject to the order of the trustees or board."

There promises to be an unprecedented awakening during the next few days. Neither council nor the parties to the other side intend to make any move for a few days. They intend to await the decision of the attorney general, who has been written to.

Another question will also be applied to council, if at the meeting called for tomorrow evening that body passes a resolution calling for a special assessment bond ordinance to the amount of \$30,000 to meet the notes given for the improvement of Pennsylvania avenue. The question will be, What authority has council for issuing a special assessment ordinance for the \$10,000 remaining against the city when it has no ground for anticipation of a collection from assessments, only \$20,000 of the entire amount being assessed against property holders?

Same Time in An Accident  
at Smith's Ferry.**

Michael Banali, an Italian, employed by the C. & P. contractors, who have been building an extensive retaining wall along the tracks west of Smith's Ferry, was instantly killed yesterday morning by the collapse of a huge derrick. A colored man, working at Banali's side, was painfully though not seriously injured. The Italian's body was removed to the undertaking establishment of John Rinehart, where short funeral services were held this afternoon. The interment was made in Spring Grove cemetery.

The men were at work lifting some heavy stones with the derrick, when one of the guy ropes parted, allowing the derrick to collapse. Banali was caught beneath the heavy timber and his head was horribly crushed. The colored man, who witnessed the breaking of the rope, narrowly missed meeting a similar fate. The huge timber just grazed his head. It was stated today that two of Banali's brothers witnessed the tragedy.

The statement in a morning paper that the name of the victim was Luigi Patulli, is not true. Patulli, it will be remembered, was struck down by a shifting engine and is now in a local hospital recovering from his injuries.

## A COLLISION OF RIGS RESULTS IN INJURY

**I. W. Bowman Thrown From His  
Buggy, Receiving Painful  
Hurts.**

Lisbon, November 16.—(Special.)—In a collision of rigs Saturday night, I. W. Bowman, who lives about a mile from Lisbon, was thrown out of his buggy on his head and shoulders and more or less severely injured. Mr. Bowman, who is a son of former Commissioner Chris. Bowman, was driving east on Chestnut street near his father's residence, and near the corner of Vine street, met another horse and buggy. The two men in this buggy one of whom was named Zimmerman, were said to have been intoxicated, and were putting their horse through at a rapid speed.

The electric light at that corner was off duty, and in the darkness Mr. Bowman was unable to avoid a collision. His horse took fright and started to run, throwing out its driver and overturning the buggy with which it had collided, at the same time badly damaging the buggy to which it was attached. The two men who were responsible for the accident quickly drove away, but were seen later in the evening and promised to pay for the damage. Mr. Bowman is out today.

Mrs. Washington Baker, of Chester avenue, died at her home Sunday afternoon at 3:30 o'clock, after an illness of several weeks. The funeral will be held at the residence Wednesday afternoon at 1:30 o'clock and the interment will be made in Riverview cemetery. Mrs. Baker was a well known and highly respected woman and her death will cause great sorrow among a wide circle of relatives and friends. Besides her husband, she is survived by nine children.

**By the Dying Woman of the Name of  
the Person Who Gave the Fatal  
Medicine—Sudden Death in Ches-  
ter Investigated.**

Mrs. Anna Starkey, of Chester, wife of Frank Starkey, a roller at the tin mill, died in terrible agony at 7:40 Sunday morning from the effects of a powerful drug administered or furnished to her over a week ago by some unknown person or persons. The cause of her illness, which has extended over a period of two weeks, was not definitely known until a few minutes before her death, when she made the startling disclosure.

Dr. Charles Campbell, who came to Chester and opened an office in the mill addition only a short time ago, was called to attend the case soon after Mrs. Starkey was taken sick, and he had not made many visits until his suspicions were aroused and he determined to call Dr. Doneohoe for consultation. The two physicians arrived at the same conclusion, namely, that the woman was suffering from the effects of blood poisoning which had been administered for the purpose of procuring a criminal operation.

The disease had taken a firm hold of the system and both doctors agreed that she could not possibly recover. The woman evidently realized that her end was near, for she made a partial confession to her husband yesterday morning. The scene was most pathetic. The physicians were present at the bedside when the husband endeavored to induce his wife to divulge the name of the person who had given her the deadly poison, and did all in their power to relieve her sufferings of Mrs. Starkey long enough for her to realize the necessity of making a complete confession.

In answer to a question put by the husband the wife said she had taken the drug in whisky, and that it had done its work only too well. Two minutes before she passed away Mr. Starkey came close to the stricken woman, and bending over her so that the faintest whisper might be heard, implored her to tell the name of her destroyer, but she refused, saying merely that it was a lady friend. She died with the secret locked within her own breast, and it will probably never be known who furnished the deadly dose.

The news quickly spread and the authorities, who had been notified at once, made arrangements for the holding of an inquest. Justice A. G. Pugh took hold of the matter and empaneled a jury composed of J. H. Thompson, W. J. Potts, H. A. McLane, C. M. McKinnon, J. P. West and C. A. Cooper. The jury examined several witnesses, including the husband and the two doctors, concluding their deliberations during the afternoon of Sunday. The verdict was that "Mrs. Frank Starkey came to her death from the effects of a drug administered or given her by some unknown person or persons."

The occurrence is particularly sad on account of the circumstances surrounding the death of the woman. She was the mother of five children, the oldest being but 13 years of age, and they with the husband are distracted over the untimely death of the beloved.

## THE USE THAT WAS MADE OF THE CITY BOND MONEY

City Auditor Davidson and City Treasurer Horton, for the purpose of showing exactly to what every penny of the \$92,925, received through the recent bond issue, has been applied, have compiled the following table:

	Received from Bond Issues.	Paid Overdrafts and notes.	Paid for Running Expenses for May and June.

wife and affectionate mother. The children are: Ethel, aged 13; John, who is 12; Bridget, 11 years old; Jennie, in her ninth year, and Leonard, who is 6.

The Starkeys have resided in Chester for nearly two years, having moved from Irondale, where Mrs. Starkey, whose maiden name was Anna McCartney, was born and reared. She was a little more than 32 years old, and was esteemed for her many good qualities.

The remains will be taken to Irondale this evening, where services will be held tomorrow morning at 10 o'clock. Rev. Mr. Grimes, pastor of the M. E. church of Irondale, will officiate, and interment will be made in the cemetery at that town.

Pittsburg, November 16.—The congregation of the Knoxville Presbyterian church adopted a resolution last night expressing esteem and confidence in its pastor, Rev. W. A. Jones, and asking him to remain with the church. The resolution was the outcome of an announcement made yesterday morning by the pastor that he had received a call to the church at East Liverpool.

Rev. Mr. Jones announced that he would go to East Liverpool this week and look over the field there, and announce his determination to the congregation next Sunday. The resolution was presented by M. D. Layton, president of the Manufacturers' Gas company, and was adopted by a rising vote of the congregation.

About 200 persons were present at the Union Charities meeting held yesterday afternoon at the First M. P. church. Dr. David Jones presided, and Dr. M. B. Pratt, Dr. J. C. Taggart and Mrs. Moreland delivered addresses on practical charity. Dr. Pratt pointed out the necessity for providing for girls who come as strangers to work in the city. While much is done toward making the stay of young men in the city pleasant, there is practically no opportunity for agreeable and wholesome associations for young women.

It was decided to establish a reading room for girls and a considerable offering was received for the purpose. The next meeting will be held Sunday afternoon, November 28.

## Farewell Sermon.

Lisbon, November 16.—(Special.)—Rev. A. W. Lytle preached his last sermon yesterday morning as pastor of the U. P. church of this city, and at the close of the service declared the pulpit vacant. The congregation has not yet extended a call to a minister to succeed him. Rev. Mr. Lytle and family will leave for Washington, Pa., next Thursday.

## RESULT OF EXPLOSION

**The Young Lady Well Known  
in Pottery Circles  
Here.**

## SHE DIED AMONG STRANGERS

Horribly burned on the left side from her waist to the top of her head, Miss Marguerite Armstrong, a native of Wellsville, but intimately known by hundreds in this city, having worked for years in several of the local decorating shops, died in awful misery at Toledo yesterday morning after suffering indescribable pain for nearly five weeks. She was the victim of a gasoline explosion.

The shocking news was received in this city and Wellsville last evening and a brother, Columbus Armstrong, of Wellsville, left for Toledo on the midnight train, to accompany the remains home tomorrow. Funeral services will be held at the home of Columbus Armstrong a short time after the arrival of the body and interment will take place in the family lot, north of Wellsville, where lie the bodies of the girl's parents.

Miss Armstrong was 25 years of age. Among the decorators of this city and vicinity she was widely known, and outside of the potteries she will be well remembered. While a resident of East Liverpool she was conceded to be one of the most beautiful young ladies in the city. Besides her personal attractiveness she possessed an amiable disposition and had friends on every side.

She decided to give up the avocation of decorator about two years ago, owing to ill health, and left at about that time for Toledo, where she learned the trade of dressmaking. In this she prospered and upon three occasions returned to East Liverpool for short visits. She was here for two weeks only last July. On the day of her accident, more than a month ago, she rose early in the morning and going to a gasoline stove carelessly applied a match with the intention of turning on the gasoline afterward. To her abject horror the fluid had been flowing for some time and the flames flew up in her face so suddenly that before she could escape fire had completely enveloped her body. She was found lying unconscious by neighbors and from that time until the date of

## TRIED TO END LIFE WITH POISON

**Thomas Nelson Took Two Ounces of Laudanum,  
But Will Recover.**

In a state of temporary insanity, caused by a drunken spree of long duration, Thomas Nelson, a turner employed at the Dresden pottery, attempted suicide at his home, Trentvale street, yesterday afternoon at about 4 o'clock, by swallowing a two-ounce vial of laudanum. That he was unsuccessful was due only to the prompt arrival of physicians.

Reaching his home yesterday shortly before 4 o'clock, Nelson, without saying a word to any of his family, strode up the stairs to his bedroom on the second floor. He went into the room and slammed the door shut. This attracted the attention of his wife and she went up to his room in a very short time afterward, thinking there was something very strange about the actions of her husband. After knocking loudly on the door and receiving no response, she tried the knob. Finding it was locked she decided to break in the door and with a heavy implement did so. The sight

that met her eyes was horrifying. Across the bed her husband was stretched as if dead. Beside him were three bottles on the outside of which were written the name of the deadly poison.

It did not take the woman long to realize what her husband had done. She immediately dispatched her son for a physician and Dr. J. Howard Davis was soon at the side of the dying man. Dr. W. J. Davis appeared on the scene a few moments later. The physicians applied the stomach pump at once and succeeded in extracting nearly all of the laudanum the man had swallowed. He commenced to revive shortly, but would not say why he had committed the act. It was learned that he purchased a two-ounce bottle of the drug yesterday afternoon. The physicians think he swallowed all of it and some that was in the other two bottles.

The physicians made another examination of Nelson this morning and state that he will recover.

## SAD STORY OF A DESERTED WIFE

**Stranger Woman and Son, Both Penniless,  
Hunting Her Husband.**

Determined to run down her heart-broken husband, who she says deserted her and their three children five years ago, Mrs. Joe Mushinski, the woman who arrived in the city last Friday morning from Cleveland and spent the night in the city jail with her 7-year-old boy, left on the noon train for Pittsburgh, where the husband is thought to be in hiding. Her experience has been a sad one.

According to her story she came to this country about eight years ago. For three years she and her husband lived happily together near New York city. Then he left her and went to Cleveland. For five long years he wrote her regularly, telling her he would send her money to bring the family to Cleveland. She waited on until her patience was worn, and a few weeks ago decided to get the money and go to him. Arriving in Cleveland she found that her husband had left for the Southside, Pittsburgh, accompanied by a woman, and that he was employed in the steel mills there. Absolutely penniless and without friends or relatives, she was in an unenviable position, but she finally applied to a Catholic institution in Cleveland and was given help. The

rescuers agreed to take charge of two of the children and give her money sufficient to take her to Pittsburgh. Accompanied by her son, she left for the Smoky City and upon arriving in this city thought she was at her destination. When she got off the train she learned her mistake and having no money was forced to apply at central station for lodging.

The attention of Martin Brozka, the wagon maker, was attracted and he kindly asked her to come and live with him until she got out of her trouble. He found that her ticket called for transportation to Pittsburgh, contrary to the statement of a morning publication to the effect that it was only good to this city, and this morning arrangements were made with Ticket Agent Hill to let her go on to Pittsburgh.

The poor woman is in a frenzied state of mind. She has learned that her husband has quit his job in Pittsburgh, doing so when he heard that she was on a search for him and that he is now in hiding somewhere in the vicinity of Pittsburgh. She has no friends in Pittsburgh and will be thrown on the mercy of the city. It is her intention to run her husband to earth and have him suffer for the misery he has caused her.

The jury examined several witnesses, including the husband and the two doctors, concluding their deliberations during the afternoon of Sunday. The verdict was that "Mrs. Frank Starkey came to her death from the effects of a drug administered or given her by some unknown person or persons."

The occurrence is particularly sad on account of the circumstances surrounding the death of the woman. She was the mother of five children, the oldest being but 13 years of age, and they with the husband are distracted over the untimely death of the beloved.

# A READING ROOM FOR YOUNG WOMEN

United Charities Association Decides to Establish One in This City.

About 200 persons were present at the Union Charities meeting held yesterday afternoon at the First M. P. church. Dr. David Jones presided, and Dr. M. B. Pratt, Dr. J. C. Taggart and Mrs. Moreland delivered addresses on practical charity. Dr. Pratt pointed out the necessity for providing for girls who come as strangers to work in the city. While much is done toward making the stay of young men in the city pleasant, there is practically no opportunity for agreeable and wholesome associations for young women.

It was decided to establish a reading room for girls and a considerable offering was received for the purpose. The next meeting will be held Sunday afternoon, November 28.

Farewell Sermon.

Lisbon, November 16.—(Special).—Rev. A. W. Lytle preached his last sermon yesterday morning as pastor of the U. P. church of this city, and at the close of the service declared the pulpit vacant. The congregation has not yet extended a call to a minister to succeed him. Rev. Mr. Lytle and family will leave for Washington, Pa., next Thursday.

# DEATH BRINGS RELIEF AFTER WEEKS OF PAIN

FIREMEN KILLED BY FALLING WALLS

THREE MET INSTANT DEATH WHILE ON DUTY.

Electric Railway Company's Car Barns Burned, Causing Half Million Loss.

Cleveland, O., November 16.—(Special).—Three persons were killed and others injured and a half million dollars' worth of property destroyed by a fire at the Cleveland Electric Railway company's barns this morning.

Firemen Robert Duffy, James Schweda and Robert Reed were killed by falling walls while on duty, and three other firemen were injured. Among the property destroyed were 100 motors.

The Starkeys have resided in Chester for nearly two years, having moved from Irondale, where Mrs. Starkey, whose maiden name was Anna McCartney, was born and reared. She was a little more than 32 years old, and was esteemed for her many good qualities.

The remains will be taken to Irondale this evening, where services will be held tomorrow morning at 10 o'clock. Rev. Mr. Grimes, pastor of the M. E. church of Irondale, will officiate, and interment will be made in the cemetery at that town.

Presbyterian Pastor-Elect Will Come Here, Look Over the Field and Decide Soon.

Pittsburg, November 16.—The congregation of the Knoxvill Presbyterian church adopted a resolution last night expressing esteem and confidence in its pastor, Rev. W. A. Jones, and asking him to remain with the church. The resolution was the outcome of an announcement made yesterday morning by the pastor that he had received a call to the church at East Liverpool.

Rev. Mr. Jones announced that he would go to East Liverpool this week and look over the field there, and announce his determination to the congregation next Sunday. The resolution was presented by M. D. Layton, president of the Manufacturers' Gas company, and was adopted by a rising vote of the congregation.

# Miss Marguerite Armstrong Dies of Accidental Burns.

RESULT OF EXPLOSION

The Young Lady Well Known in Pottery Circles Here.

# SHE DIED AMONG STRANGERS

Horribly burned on the left side from her waist to the top of her head, Miss Marguerite Armstrong, a native of Wellsville, but intimately known by hundreds in this city, having worked for years in several of the local decorating shops, died in awful misery at Toledo yesterday morning after suffering indescribable pain for nearly five weeks. She was the victim of a gasoline explosion.

The shocking news was received in this city and Wellsville last evening and a brother, Columbus Armstrong, of Wellsville, left for Toledo on the midnight train, to accompany the remains home tomorrow. Funeral services will be held at the home of Columbus Armstrong a short time after the arrival of the body and interment will take place in the family lot, north of Wellsville, where lie the bodies of the girl's parents.

Miss Armstrong was 25 years of age. Among the decorators of this city and vicinity she was widely known, and outside of the potteries she will be well remembered. While a resident of East Liverpool she was conceded to be one of the most beautiful young ladies in the city. Besides her personal attractiveness she possessed an amiable disposition and had friends on every side.

She decided to give up the avocation of decorator about two years ago, owing to ill health, and left at about that time for Toledo, where she learned the trade of dressmaking. In this she prospered and upon three occasions returned to East Liverpool for short visits. She was here for two weeks only last July. On the day of her accident, more than a month ago, she rose early in the morning and going to a gasoline stove carelessly applied a match with the intention of turning on the gasoline afterward. To her abject horror the fluid had been flowing for some time and the flames flew up in her face so suddenly that before she could escape fire had completely enveloped her body. She was found lying unconscious by neighbors and from that time until the date of

He says he was robbed by two men who held him captive since Thursday night.

# TRIED TO END LIFE WITH POISON

Thomas Nelson Took Two Ounces of Laudanum, But Will Recover.

In a state of temporary insanity, caused by a drunken spree of long duration, Thomas Nelson, a turner employed at the Dresden pottery, attempted suicide at his home, Trentvale street, yesterday afternoon at about 4 o'clock, by swallowing a two-ounce vial of laudanum. That he was unsuccessful was due only to the prompt arrival of physicians.

Reaching his home yesterday shortly before 4 o'clock, Nelson, without saying a word to any of his family, strode up the stairs to his bedroom on the second floor. He went into the room and slammed the door shut. This attracted the attention of his wife and she went up to his room in a very short time afterward, thinking there was something very strange about the actions of her husband. After knocking loudly on the door and receiving no response, she tried the knob. Finding it was locked she decided to break in the door and with a heavy implement did so. The sight

that met her eyes was horrifying. Across the bed her husband was stretched as if dead. Beside him were three bottles on the outside of which were written the name of the deadly poison.

It did not take the woman long to realize what her husband had done. She immediately dispatched her son for a physician and Dr. J. Howard Davis was soon at the side of the dying man. Dr. W. J. Davis appeared on the scene a few moments later. The physicians applied the stomach pump at once and succeeded in extracting nearly all of the laudanum the man had swallowed. He commenced to revive shortly, but would not say why he had committed the act. It was learned that he purchased a two-ounce bottle of the drug yesterday afternoon. The physicians think he swallowed all of it and some that was in the other two bottles.

The physicians made another examination of Nelson this morning and state that he will recover.

### NEW YORK NOTES.

Every week's round of visits through the important retail houses of New York city, to say nothing of noting the increased space devoted to china, in the leading department stores, marks the fact that active preparations are being made for the approaching holiday season. In the last named busy marts, generous quarters are utilized by encroaching upon space usually allotted to other lines of goods. Extra counters and table occupy center space, and upon these are grouped attractive, useful and ornamental articles.

It is an undeniable fact that the popularity of gifts in pottery and porcelain is steadily increasing, and with such a broad field in dinner, toilet, table ware and cabinet bric-a-brac to select from certainly all femininity is likely to be pleased with presents of this class; nor is it likely the sterner sex will be disappointed by the admirable provision that is made to supplant the old-time misfit slippers by such really acceptable presents as tankards, beer mugs, tobacco jars, tantalus sets and other articles, maybe purely decorative, befitting Benedict chambers, smoking rooms, college quarters, library, study or den.

Among the jardinières shown here one notes hardly less than 75 different patterns in shapes and colors, and "Blue Blend" was developed to advantage in some tea and chocolate sets, vases and other receptacles; the blue and white tones are tastefully graded to blend into one another. The blue tones are so mellow that they can hardly fail to harmonize with effect in any color scheme, hence the name "Blue Blend" is descriptive and aptly applied in more senses than one.

### PRIZES AWARDED.

At the annual exhibit of the Duquesne Ceramic club, held at the Hotel Schenley, Pittsburgh, this week, Miss Mabel Farren won both the silver and bronze medals for the best decorative work on plates and vases. Honorable mention was accorded a larger number than usual, among them being Mrs. William Walters for a vase done in wisteria from nature; Miss Mabel Faust, conventional design; Mrs. Annie McIntyre, a bowl in silver and black, with a grape design; Mrs. N. L. Jackson, a vase; Miss Helen Harper, a design in enamel and gold; Miss Laura Overly, a vase; Mrs. Otis Chessman, Mrs. H. L. Swaney and Mrs. E. D. Miller, conventional designs on plate. One of the most interesting exhibits was a portrait in cameo effect, the work of Miss Mabel Farren.

### BIG BRICK CONTRACTS.

The hand molded brick which are turned out in vast quantities at the Vulcan Fire Clay company's yards in Wellsville, are nearly all shipped to Pittsburgh and vicinity and used for flue and furnace linings. The company is working on one or two paving brick contracts which will require over a million of brick to fill. The soft brick department and machinery added thereto are about completed, and

A small addition to the force of laborers will be made shortly. The company drew a number of kilns last week of special sizes of hand-molded brick which were shipped to Chicago, Cleveland, and as far east as New York and Rhode Island.

### BRICK BUSINESS BOOMING.

Charles Brown, a brick worker of Vanport, Pa., was in Wellsville yesterday. Mr. Brown reports the Spoor's, Moore's, Gioninger and Dando fire brick yards as having a most successful run this year. The Dando is the only yard that will shut down this winter. The first named yard turns out 40,000 paving brick a day, the Gioninger and Moore yards 20,000 building brick per day, and the Dando 10,000. The Spoor Fire Clay company has shipped 11,000,000 paving brick this season, and erected one new kiln.

### A RUSSIAN SHIPMENT.

The Trenton Potteries company have recently shipped three carloads of porcelain ware to St. Petersburg, Russia. Shipments of sanitary supplies, such as bath tubs, porcelain supplies and wash tanks, have been made to the Philippines, China and Japan and other Asiatic countries. These modern sanitary appliances are put up in more attractive style in this country than abroad. Like other American products the sanitary output is today competing with the English makes of tubs and similar articles.

### REPAIRS IN PROGRESS.

Repairs are in progress at the Buckeye Brick works in Wellsville in the transfer tracks and apparatus for transferring loaded trucks running to the tunnels, kilns and in loading cars. Other repairs needed before the approach of real cold weather are also building.

### GOOD PROSPECTS.

The New Brighton, Pa., sewer pipe plants of the American Sewer Pipe company have prospects of running the entire winter. It is probable that the eleven plants located in Toronto and vicinity will continue until extreme cold weather or repairs necessitate shutting down.

### BIG SHIPMENTS.

The East Ohio Sewer Pipe works at Irondale are shipping from 15 to 20 cars of pipe per day, and their yards are entirely cleaned out of pipe. They have recently opened a new fire clay mine which has a fine vein of fire clay. The clay is used up as fast as mined.

### SERMON BY REV. DR. JONES

Making a Compromise And Trying to Lead a Decent Life Will Not Answer—Pulpit Topics in Other Churches of the City.

Rev. Dr. David Jones, pastor of the First Methodist Protestant church, preached two powerful and instructive sermons yesterday. Both of them were founded on the 14th chapter of Hosea, which in itself exhorts the people of Israel to repentance, giving to them the promise of God's blessing. The able minister made the lessons of the chapter apply to the people of the present day and the conclusions that he drew were logical and most pointed.

The scriptural reading on which the themes were based follows: "O Israel, return unto the Lord, thy God, for thou hast fallen by thine iniquity."

"Take with you words and turn to the Lord; say unto Him, Take away all iniquity, and receive us graciously, so will we render the calves of our lips."

"Asshur shall not save us; we will not ride upon horses; neither shall we say any more to the work of our hands, Ye are our Gods; for in thee the fatherless find mercy."

"I will heal their backsliding, I will love them freely: for mine anger is turned away from him."

"I will be as the dew upon Israel: he shall grow as the lily, and cast forth his roots in Lebanon."

"They that dwell under his shadow shall return; they shall revive as the corn, and grow as the vine; the scent thereof shall be the wine of Lebanon."

"His branches shall spread and his beauty shall be as the olive tree, and his smell as Lebanon."

"Ephraim shall say, What have I to do any more with idols? I have heard him and observed him: I am like a green fir tree. From me is thy fruit found."

"Who is wise and he shall understand these things prudent and he shall know them? for the ways of the Lord are right, and the just shall walk in them: but the transgressors shall fall therein."

It was the object of Rev. Dr. Jones to explain the meaning of the chapter, to give a commentary on it, and he did so in a highly interesting manner. He said the chapter was wonderful for its tenderness, its richness and love; for its great and splendid promises. The invitation extended by the words, "Return unto the Lord," was to a people who once more were in close relation to God, but who had wandered away. They were backsliders. They at one time were with the world in being close to God, but had allowed themselves to drift away and He was appealing to them to return.

In addressing them they are spoken to by their covenant name, Israel. He did not shun them and call them by other than their covenant name because they had drifted into idolatry. We have a strange theology taught us in this day. When a man sins he is said to be in the hands of the devil. That is not taught by the bible, as God did not cast off Israel simply because its people had sinned. Do not suppose that His face is frowning like a thunder cloud, it is bright as the sunshine and He is ready to receive you as He was the prodigal.

Return unto the Lord thy God. It is the nature of people now to change their lives when shunned by remorse

and shocked by the awfulness of their past lives. They determine to amend their lives and live decently. That, of course, is all right. But it is only half-way religion and will do but little good. You must return to the Lord. Don't try to make a compromise by deciding to live only a decent life. The vital stage is returning to the Lord and unless you do so you are eternally lost, no difference if you are amending for a life of sin by living in a state of respectability. There is no safety or salvation in any plan but giving yourself entirely to God. He tells us how to return. Return with the words, "Take away all of mine iniquity." That is the penitent's prayer.

Iniquity is the cause of all downfall. It is created by our companionship. It is derived through the choice of a man's own will. There is no earthly power that can make a man fall into iniquity against his own will. It is said by many men that they are slaves to drink because the craving was born in them. That is not so. It is their personal choice, or it would not be so. On the great judgment day there will be no man who can lay down the plea that he sinned because of inheriting the craving for certain sin. It is all brought out by our own self will and this being certain it behooves us to get rid of our iniquity.

The usual large congregation at the morning service at the First Methodist church enjoyed the discourse of the pastor, Rev. Dr. Milton Butler Pratt, upon the theme, "The Recurrence of Pentecost." Upon this first public manifestation of the Holy Ghost, so significant to religious life, Rev. Dr. Pratt built a sacred address that was scholarly and masterly. There was comfort in it for every Christian heart.

## SIGNIFICANCE OF DAY OF PENTECOST

WHAT ITS RECURRENCE MEANS TO THE CHRISTIAN.

A Sermon of Great Impressiveness Delivered By Dr. Pratt Yesterday.

The meetings in the basement of the postoffice building continue to grow in interest. The series will continue for an indefinite period. The services of Mrs. Abbie Lewis, of Conneautville, Pa., and Mrs. E. Fenlon have been secured, who will preach the fourfold gospel, the salvation of sinners, sanctification of believers, healing of the sick by the laying on of hands and the coming of the Lord. Services every evening at 7:30.

At St. Stephen's. Rev. Edwin Weary at St. Stephen's church last evening concluded his series of sermons on "Progress in Holiness." He urged his hearers to greater development by means of prayer and praise. The night before Thanks

ference this Comforter has wrought to the individual believer and how it has grounded the faith of the church in the living Christ were emphasized by the minister.

In the day of Abraham men were deficient in religion and even Abraham could not be acceptable as a Christian according to present day standards. Men saw better in Samson's day and lived richer and broader lives but it was not until generations after that the marvelous oratory and the prophecies of the religious leaders were given to the people. Yet religious life was still less rich than at the coming of Jesus. The minister, for the enjoyment of religious life as an individual believer, would have preferred to have lived at the time of Christ than any time before.

After the crucifixion came the high noon, the Pentecost. The people were through the great religious events just preceding, susceptible to such a manifestation. On the morning of that day the disciples gathered together on Mount Moriah, witnessed the fulfillment of the Christ's promise. Some in the multitude mocked, saying, the disciples were drunk on new wine, but Peter silenced them with his biting satire.

Faith was at a low ebb at the first appearance of the Holy Ghost. That Christ, the worker of miracles, should meet an ignominious death tried the disciples to the utmost. Their faith had been taxed and they had grown to doubt. But when Pentecost burst on them the lost promise had been filled.

God's cause has been advanced only through this supernatural or divine power. The attacks upon Christianity by agnostics have been met by scholarly and unanswerable replies, but this has not won a battle. It is in the recurrence of the Pentecost that the faith of the church is founded. God is with the soul, always. He was never nearer than he is today. Through the recurrence of the Pentecost we realize His presence, not that He will come. It means infinitely more. It means the breaking down of all lamentations. The people, half famished, gathered around Moses as he returned from the Mount, and saw the heavenly light, but only Moses enjoyed the richness of the religious blessing. God had found but few worthy of His smile. Now, every man can linger in His presence; every soul can hear the whispering voice, and no matter in what condition of life, can open his heart for the recurrence of Pentecost, that comforter come to endure with the world.

### Winter Meetings Opened.

The first of the winter meetings for men was held yesterday afternoon at the Y. M. C. A. hall. Interesting remarks on the relation of the young man to the Y. M. C. A. were made by Physical Director E. J. State and Secretary H. H. Pollard. Brief speeches along the same line were made by Rev. Drs. M. B. Pratt, J. C. Taggart, David Jones and H. H. Bawden. Good music was furnished by a special choir. The meeting was fairly well attended and much interest shown.

New Amsterdam, November 16.—New Amsterdam now has 25 producing oil wells. A well came in last week, on the Rutledge heirs' farm, good for a three-barrel pumper. A new rig is going up on the Thomas Calhoun farm. Oil drillers are very scarce or operations would be still more active.

Six new cases of diphtheria are reported. There seems to be an epidemic of diphtheria.

High's coal mines are operating steadily, and the coal is all shipped to the lakes over the Lake Erie, Alliance & Wheeling route.

Seventy-five to 80 new houses have been erected in town this summer, and still more are building. The number will reach 100 before winter fully sets in. The population of the town is now about 800 and growing steadily. Three years ago there were but two stores. We now have nine stores, butcher shops, two churches, M. E. and Presbyterian, and a national bank.

Edward Calhoun, of Wellsville, visited his father, Emmett Calhoun, of town, last week.

The Wheeling & Lake Erie, or Wash system, have completed their survey through this section and will build a line up Wolf run to the Magee lands, where a big new coal mine will be opened and a large tipples erected. The road will continue on towards Annapolis, Jefferson county, to tap their important coal lands.

### NEW YORK NOTES.

Every week's round of visits through the important retail houses of New York city, to say nothing of noting the increased space devoted to china, in the leading department stores, marks the fact that active preparations are being made for the approaching holiday season. In the last named busy marts, generous quarters are utilized by encroaching upon space usually allotted to other lines of goods. Extra counters and table occupy center space, and upon these are grouped attractive, useful and ornamental articles.

It is an undeniable fact that the popularity of gifts in pottery and porcelain is steadily increasing, and with such a broad field in dinner, toilet, table ware and cabinet bric-a-brac to select from certainly all femininity is likely to be pleased with presents of this class; nor is it likely the sterner sex will be disappointed by the admirable provision that is made to supplant the old-time misfit slipper by such really acceptable presents as tankards, beer mugs, tobacco jars, tantalus sets and other articles, maybe purely decorative, befitting Benedict chambers, smoking rooms, college quarters, library, study or den.

Among the jardineres shown here one notes hardly less than 75 different patterns in shapes and colors, and "Blue Blend" ware is developed to advantage in some tea and chocolate sets, vases and other receptacles; the blue and white tones are tastefully graded to blend into one another. The blue tones are so mellow that they can hardly fail to harmonize with effect in any color scheme, hence the name "Blue Blend" is descriptive and aptly applied in more senses than one.

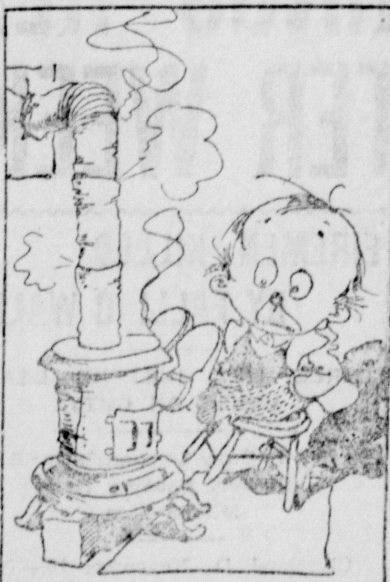

### PRIZES AWARDED.

At the annual exhibit of the Duquesne Ceramic club, held at the Hotel Schenley, Pittsburgh, this week, Miss Mabel Farren won both the silver and bronze medals for the best decorative work on plates and vases. Honorable mention was accorded a larger number than usual, among them being Mrs. William Walters for a vase done in wisterias from nature; Miss Mabel Faust, conventional design; Mrs. Annie McIntyre, a bowl in silver and black, with a grape design; Mrs. N. L. Jackson, a vase; Miss Helen Harper, a design in enamel and gold; Miss Laura Overly, a vase; Mrs. O. L. Chessman, Mrs. H. L. Swaney and Mrs. E. D. Miller, conventional designs on plate. One of the most interesting exhibits was a portrait in cameo effect, the work of Miss Mabel Farren.

### BIG BRICK CONTRACTS.

The hand molded brick which are turned out in vast quantities at the Vulcan Fire Clay company's yards in Wellsville, are nearly all shipped to Pittsburgh and vicinity and used for flue and furnace linings. The company is working on one or two paving brick contracts which will require over a million of brick to fill. The soft brick department and machinery added thereto are about completed, and

a small addition to the force of laborers will be made shortly. The company drew a number of kilns last week of special sizes of hand-molded brick which were shipped to Chicago, Cleveland, and as far east as New York and Rhode Island.

### BRICK BUSINESS BOOMING.

Charles Brown, a brick worker of Vanport, Pa., was in Wellsville yesterday. Mr. Brown reports the Speer's, Moore's, Gioninger and Dando fire brick yards as having a most successful run this year. The Dando is the only yard that will shut down this winter. The first named yard turns out 40,000 paving brick a day, the Gioninger and Moore yards 20,000 building brick per day, and the Dando 10,000. The Speer Fire Clay company has shipped 11,000,000 paving brick this season, and erected one new kiln.

### A RUSSIAN SHIPMENT.

The Trenton Potteries company have recently shipped three carloads of porcelain ware to St. Petersburg, Russia. Shipments of sanitary supplies, such as bath tubs, porcelain supplies and wash tanks, have been made to the Philippines, China and Japan and other Asiatic countries. These modern sanitary appliances are put up in more attractive style in this country than abroad. Like other American products the sanitary output is today competing with the English makes of tubs and similar articles.

### REPAIRS IN PROGRESS.

Repairs are in progress at the Buckeye Brick works in Wellsville in the transfer tracks and apparatus for transferring loaded trucks running to the tunnels, kilns and in loading cars. Other repairs needed before the approach of real cold weather are also building.

### GOOD PROSPECTS.

The New Brighton, Pa., sewer pipe plants of the American Sewer Pipe company have prospects of running the entire winter. It is probable that the eleven plants located in Toronto and vicinity will continue until extreme cold weather or repairs necessitate shutting down.

### BIG SHIPMENTS.

The East Ohio Sewer Pipe works at Irondele are shipping from 15 to 20 cars of pipe per day, and their yards are entirely cleaned out of pipe. They have recently opened a new fire clay mine which has a fine vein of fire clay. The clay is used up as fast as mined.

### SERMON BY REV. DR. JONES

Making a Compromise And Trying to Lead a Decent Life Will Not Answer—Pulpit Topics in Other Churches of the City.

Rev. Dr. David Jones, pastor of the First Methodist Protestant church, preached two powerful and instructive sermons yesterday. Both of them were founded on the 14th chapter of Hosea, which in itself exhorts the people of Israel to repentance, giving to them the promise of God's blessing. The able minister made the lessons of the chapter apply to the people of the present day and the conclusions that he drew were logical and most pointed.

The scriptural reading on which the sermons were based follows: "O Israel, return unto the Lord, thy God, for thou hast fallen by thine iniquity."

"Take with you words and turn to the Lord; say unto Him, Take away all iniquity, and receive us graciously, so will we render the calves of our lips."

"Asshur shall not save us; we will not ride upon horses; neither shall we say any more to the work of our hands, Ye are our Gods; for in thee the fatherless find mercy."

"I will heal their backsliding, I will love them freely: for mine anger is turned away from him."

"I will be as the dew upon Israel; he shall grow as the lily, and cast forth his roots in Lebanon."

"They that dwell under his shadow shall return; they shall revive as the corn, and grow as the vine; the scent thereof shall be the wine of Lebanon."

"His branches shall spread and his beauty shall be as the olive tree, and his smell as Lebanon."

"Ephraim shall say, What have I to do any more with idols? I have heard him and observed him: I am like a green fir tree. From me is thy fruit found."

"Who is wise and he shall understand these things prudent and he shall know them? for the ways of the Lord are right, and the just shall walk in them; but the transgressors shall fall therein."

It was the object of Rev. Dr. Jones to explain the meaning of the chapter, to give a commentary on it, and he did so in a highly interesting manner. He said the chapter was wonderful for its tenderness, its richness and love; for its great and splendid promises. The invitation extended by the words, "Return unto the Lord," was to a people who once more were in close relation to God, but who had wandered away. They were backsliders. They at one time were with the world in being close to God, but had allowed themselves to drift away and He was appealing to them to return.

In addressing them they are spoken to by their covenant name, Israel. He did not shun them and call them by other than their covenant name because they had drifted into idolatry. We have a strange theology taught us in this day. When a man sins he is said to be in the hands of the devil. That is not taught by the bible, as God did not cast off Israel simply because its people had sinned. Do not suppose that His face is frowning like a thunder cloud, it is bright as the sunshine and He is ready to receive you as He was the prodigal.

Return unto the Lord thy God. It is the nature of people now to change their lives when shunned by remorse

and shocked by the awfulness of their past lives. They determine to amend their lives and live decently. That, of course, is all right. But it is only half-way religion and will do but little good. You must return to the Lord. Don't try to make a compromise by deciding to live only a decent life. The vital stage is returning to the Lord and unless you do so you are eternally lost, no difference if you are amending for a life of sin by living in a state of respectability. There is no safety or salvation in any plan but giving yourself entirely to God. He tells us how to return. Return with the words, "Take away all of mine iniquity." That is the penitent's prayer.

Iniquity is the cause of all downfall. It is created by our companionship. It is derived through the choice of a man's own will. There is no earthly power that can make a man fall into iniquity against his own will. It is said by many men that they are slaves to drink because the craving was born in them. That is not so. It is their personal choice, or it would not be so. On the great judgment day there will be no man who can lay down the plea that he sinned because of inheriting the craving for certain sin. It is all brought out by our own self will and this being certain it behooves us to get rid of our iniquity.

The usual large congregation at the morning service at the First Methodist church enjoyed the discourse of the pastor, Rev. Dr. Milton Butler Pratt, upon the theme, "The Recurrence of Pentecost." Upon this first public manifestation of the Holy Ghost, so significant to religious life, Rev. Dr. Pratt built a sacred address that was scholarly and masterly. There was comfort in it for every Christian heart.

That manifestation on Mount Moriah, when the faithful few and those of the multitude realized that Christ's last promise had been fulfilled, marked the beginning of a part of the divine plan, no less in importance, and closely related to the earthly visit, work and crucifixion of Jesus Christ. The dif-

ference this Comforter has wrought to the individual believer and how it has grounded the faith of the church in the living Christ were emphasized by the minister.

In the day of Abraham men were deficient in religion and even Abraham could not be acceptable as a Christian according to present day standards. Men saw better in Samuel's day and lived richer and broader lives but it was not until generations after that the marvelous oratory and the prophecies of the religious leaders were given to the people. Yet religious life was still less rich than at the coming of Jesus. The minister, for the enjoyment of religious life as an individual believer, would have preferred to have lived at the time of Christ than any time before.

After the crucifixion came the high noon, the Pentecost. The people were, through the great religious events just preceding, susceptible to such a manifestation. On the morning of that day the disciples gathered together on Mount Moriah, witnessed the fulfillment of the Christ's promise. Some in the multitude mocked, saying, the disciples were drunk on new wine, but Peter silenced them with his biting satire.

Faith was at a low ebb at the first appearance of the Holy Ghost. That Christ, the worker of miracles, should make an ignominious death tried the disciples to the utmost. Their faith had been taxed and they had grown to doubt. But when Pentecost burst on them the lost promise had been fulfilled.

God's cause has been advanced only through this supernatural or divine power. The attacks upon Christianity by agnostics have been met by scholarly and unanswerable replies, but this has not won a battle. It is in the recurrence of the Pentecost that the faith of the church is founded. God is with the soul, always. He was never nearer than he is today. Through the recurrence of the Pentecost we realize His presence, not that He will come. It means infinitely more. It means the breaking down of all lamentations. The people, half-famished, gathered around Moses as he returned from the Mount, and saw the heavenly light, but only Moses enjoyed the richness of the religious blessing. God had found but few worthy of His smile. Now, every man can linger in His presence; every soul can hear the whispering voice, and no matter in what condition of life, can open his heart for the recurrence of Pentecost, that comforter come to endure with the world.

The third set of concerts this season by the Pittsburg orchestra, Victor Herbert conductor, will be given Friday evening, November 20, and Saturday afternoon, November 21, in Carnegie music hall, Schenley park. Not many years has the element of novelty so abounding as in the program of these concerts. Mendelssohn's Delibes are each represented by composition to be played for the first time at these concerts, the symphony is to be played for the first time in the United States and a number of Tschalkowsky for the first time in Pittsburgh. The soloist is Miss M. Golden Tracy, soprano, who will make her debut in Pittsburgh at these concerts. Miss Tracy comes from a New England family, but was educated for the most part abroad, in London and Berlin.

### NEW YORK NOTES.

Every week's round of visits through the important retail houses of New York city, to say nothing of noting the increased space devoted to china in the leading department stores, marks the fact that active preparations are being made for the approaching holiday season. In the last named busy marts, generous quarters are utilized by encroaching upon space usually allotted to other lines of goods. Extra counters and table occupy center space, and upon these are grouped attractive, useful and ornamental articles.

It is an undeniable fact that the popularity of gifts in pottery and porcelain is steadily increasing, and with such a broad field in dinner, toilet, table ware and cabinet bric-a-brac to select from certainly all femininity is likely to be pleased with presents of this class; nor is it likely the sterner sex will be disappointed by the admirable provision that is made to supplant the old-time misfit slippers by such really acceptable presents as tankards, beer mugs, tobacco jars, tantalus sets and other articles, maybe purely decorative, belittling Benedict chambers, smoking rooms, college quarters, library, study or den.

Among the jardinières shown here one notes hardly less than 75 different patterns in shapes and colors, and "Blue Blend" ware is developed to advantage in some tea and chocolate sets, vases and other receptacles; the blue and white tones are tastefully graded to blend into one another. The blue tones are so mellow that they can hardly fail to harmonize with effect in any color scheme, hence the name "Blue Blend" is descriptive and aptly applied in more senses than one.

### PRIZES AWARDED.

At the annual exhibit of the Duquesne Ceramic club, held at the Hotel Schenley, Pittsburgh, this week, Miss Mabel Farren won both the silver and bronze medals for the best decorative work on plates and vases. Honorable mention was accorded a larger number than usual, among them being Mrs. William Walters for a vase done in wisterias from nature; Miss Mabel Faust, conventional design; Mrs. Annie McIntyre, a bowl in silver and black, with a grape design; Mrs. N. L. Jackson, a vase; Miss Helen Harper, a design in enamel and gold; Miss Laura Overly, a vase; Mrs. Otis Chessman, Mrs. H. L. Swaney and Mrs. E. D. Miller, conventional designs on plate. One of the most interesting exhibits was a portrait in cameo effect, the work of Miss Mabel Farren.

a small addition to the force of laborers will be made shortly. The company drew a number of kilns last week of special sizes of hand-molded brick which were shipped to Chicago, Cleveland, and as far east as New York and Rhode Island.

### BRICK BUSINESS BOOMING.

Charles Brown, a brick worker of Vanport, Pa., was in Wellsville yesterday. Mr. Brown reports the Speer's, Moore's, Gloninger and Dando fire brick yards as having a most successful run this year. The Dando is the only yard that will shut down this winter. The first named yard turns out 40,000 paving brick a day, the Gloninger and Moore yards 20,000 building brick per day, and the Dando 10,000. The Speer Fire Clay company has shipped 11,000,000 paving brick this season, and erected one new kiln.

### A RUSSIAN SHIPMENT.

The Trenton Pottery company have recently shipped three carloads of porcelain ware to St. Petersburg, Russia. Shipments of sanitary supplies, such as bath tubs, porcelain supplies and wash tanks, have been made to the Philippines, China and Japan and other Asiatic countries. These modern sanitary appliances are put up in more attractive style in this country than abroad. Like other American products the sanitary output is today competing with the English makes of tubs and similar articles.

### REPAIRS IN PROGRESS.

Repairs are in progress at the Buckeye Brick works in Wellsville in the transfer tracks and apparatus for transferring loaded trucks running to the tunnels, kilns and in loading cars. Other repairs needed before the approach of real cold weather are also building.

### GOOD PROSPECTS.

The New Brighton, Pa., sewer pipe plants of the American Sewer Pipe company have prospects of running the entire winter. It is probable that the eleven plants located in Toronto and vicinity will continue until extreme cold weather or repairs necessitate shutting down.

### BIG SHIPMENTS.

The East Ohio Sewer Pipe works at Irondele are shipping from 15 to 20 cars of pipe per day, and their yards are entirely cleaned out of pipe. They have recently opened a new fire clay mine which has a fine vein of fire clay. The clay is used up as fast as mined.

## RELIGION THAT IS BUT HALF ENOUGH

The True Regeneration Found Only By Returning Unto God.

### SERMON BY REV. DR. JONES

Making a Compromise And Trying to Lead a Decent Life Will Not Answer—Pulpit Topics in Other Churches of the City.

Rev. Dr. David Jones, pastor of the First Methodist Protestant church, preached two powerful and instructive sermons yesterday. Both of them were founded on the 14th chapter of Hosea, which in itself exhorts the people of Israel to repentance, giving to them the promise of God's blessing. The able minister made the lessons of the chapter apply to the people of the present day and the conclusions that he drew were logical and most pointed.

The scriptural reading on which the themes were based follows:

"O Israel, return unto the Lord, thy God, for thou hast fallen by thine iniquity."

"Take with you words and turn to the Lord; say unto Him, Take away all iniquity, and receive us graciously, so will we render the calves of our lips."

"Asshur shall not save us; we will not ride upon horses; neither shall we say any more to the work of our hands, Ye are our Gods; for in thee the fatherless find mercy."

"I will heal their backsliding, I will love them freely; for mine anger is turned away from him."

"I will be as the dew upon Israel: he shall grow as the lily, and cast forth his roots in Lebanon."

"They that dwell under his shadow shall return; they shall revive as the corn, and grow as the vine; the scent thereof shall be the wine of Lebanon."

"His branches shall spread and his beauty shall be as the olive tree, and his smell as Lebanon."

"Ephraim shall say, What have I to do any more with idols? I have heard him and observed him: I am like a green fir tree. From me is thy fruit found."

"Who is wise and he shall understand these things prudent and he shall know them? for the ways of the Lord are right, and the just shall walk in them; but the transgressors shall fall therein."

It was the object of Rev. Dr. Jones to explain the meaning of the chapter, to give a commentary on it, and he did so in a highly interesting manner. He said the chapter was wonderful for its tenderness, its richness and love; for its great and splendid promises. The invitation extended by the words, "Return unto the Lord," was to a people who once more were in close relation to God, but who had wandered away. They were backsliders. They at one time were with the world in being close to God, but had allowed themselves to drift away and He was appealing to them to return.

In addressing them they are spoken to by their covenant name, Israel. He did not shun them and call them by other than their covenant name because they had drifted into idolatry. We have a strange theology taught us in this day. When a man sins he is said to be in the hands of the devil. That is not taught by the bible, as God did not cast off Israel simply because its people had sinned. Do not suppose that His face is frowning like a thunder cloud, it is bright as the sunshine and He is ready to receive you as He was the prodigal.

Return unto the Lord thy God. It is the nature of people now to change their lives when shunned by remorse

and shocked by the awfulness of their past lives. They determine to amend their lives and live decently. That, of course, is all right. But it is only half-way religion and will do but little good. You must return to the Lord. Don't try to make a compromise by deciding to live only a decent life. The vital stage is returning to the Lord and unless you do so you are eternally lost, no difference if you are amending for a life of sin by living in a state of respectability. There is no safety or salvation in any plan but giving yourself entirely to God. He tells us how to return. Return with the words, "Take away all of mine iniquity." That is the penitent's prayer.

Iniquity is the cause of all downfall. It is created by our companionship. It is derived through the choice of a man's own will. There is no earthly power that can make a man fall into iniquity against his own will. It is said by many men that they are slaves to drink because the craving was born in them. That is not so. It is their personal choice, or it would not be so. On the great judgment day there will be no man who can lay down the plea that he sinned because of inheriting the craving for certain sin. It is all brought out by our own self will and this being certain it behooves us to get rid of our iniquity.

## SIGNIFICANCE OF DAY OF PENTECOST

WHAT ITS RECURRENCE MEANS TO THE CHRISTIAN.

A Sermon of Great Impressiveness Delivered By Dr. Pratt Yesterday.

The usual large congregation at the morning service at the First Methodist church enjoyed the discourse of the pastor, Rev. Dr. Milton Butler Pratt, upon the theme, "The Recurrence of Pentecost." Upon this first public manifestation of the Holy Ghost, so significant to religious life, Rev. Dr. Pratt built a sacred address that was scholarly and masterly. There was comfort in it for every Christian heart.

That manifestation on Mount Moriah when the faithful few and those of the multitude realized that Christ's last promise had been fulfilled, marked the beginning of a part of the divine plan, no less in importance, and closely related to the earthly visit, work and crucifixion of Jesus Christ. The dif-

ference this Comforter has wrought to the individual believer and how it has grounded the faith of the church in the living Christ were emphasized by the minister.

In the day of Abraham men were deficient in religion and even Abraham could not be acceptable as a Christian according to present day standards. Men saw better in Samuel's day and lived richer and broader lives but it was not until generations after that the marvelous oratory and the prophecies of the religious leaders were given to the people. Yet religious life was still less rich than at the coming of Jesus. The minister, for the enjoyment of religious life as an individual believer, would have preferred to have lived at the time of Christ than any time before.

After the crucifixion came the high noon, the Pentecost. The people were through the great religious events just preceding, susceptible to such a manifestation. On the morning of that day the disciples gathered together on Mount Moriah, witnessed the fulfillment of the Christ's promise. Some in the multitude mocked, saying, the disciples were drunk on new wine, but Peter silenced them with his biting satire.

Faith was at a low ebb at the first appearance of the Holy Ghost. That Christ, the worker of miracles, should meet an ignominious death tried the disciples to the utmost. Their faith had been taxed and they had grown to doubt. But when Pentecost burst on them the lost promise had been filled.

God's cause has been advanced only through this supernatural or divine power. The attacks upon Christianity by agnostics have been met by scholarly and unanswerable replies, but this has not won a battle. It is in the recurrence of the Pentecost that the faith of the church is founded. God is with the soul, always. He was never nearer than he is today. Through the recurrence of the Pentecost we realize His presence, not that He will come. It means infinitely more. It means the breaking down of all lamentations. The people, half-finished, gathered around Moses as he returned from the Mount, and saw the heavenly light, but only Moses enjoyed the richness of the religious blessing. God had found but few worthy of His smile. Now, every man can linger in His presence; every soul can hear the whispering voice, and no matter in what condition of life, can open his heart for the recurrence of Pentecost, that comforter come to endure with the world.

Winter Meetings Opened. The first of the winter meetings for men was held yesterday afternoon at the Y. M. C. A. hall. Interesting remarks on the relation of the young man to the Y. M. C. A. were made by Physical Director E. J. State and Secretary H. H. Pollard. Brief speeches along the same line were made by Rev. Drs. M. B. Pratt, J. C. Taggart, David Jones and H. H. Bowden. Good music was furnished by a special choir. The meeting was fairly well attended and much interest shown.

Special Meetings. The meetings in the basement of the postoffice building continue to grow in interest. The series will continue for an indefinite period. The services of Mrs. Abbie Lewis, of Conneautville, Pa., and Mrs. E. Fenlon have been secured, who will preach the fourfold gospel, the salvation of sinners, sanctification of believers, healing of the sick by the laying on of hands and the coming of the Lord. Services every evening at 7:30.

At St. Stephen's. Rev. Edwin Weary at St. Stephen's church last evening concluded his series of sermons on "Progress in Holiness." He urged his hearers to greater development by means of prayer and praise. The night before Thanksgiving a meeting will be held at the parish house to form a church club for men to work in conjunction with the pastor in increasing membership and interest in the church.

Three Were Baptized. The special meetings at the Christian church closed last evening with an able sermon by the pastor, Rev. J. W. Gorrell. Three persons were baptized.

NEW AMSTERDAM. New Amsterdam, November 16.—New Amsterdam now has 25 producing oil wells. A well came in last week, on the Rutledge heirs' farm, good for a three-barrel pumper. A new rig is going up on the Thomas Calhoun farm. Oil drillers are very scarce or operations would be still more active.

Six new cases of diphtheria are reported. There seems to be an epidemic of diphtheria.

Hight's coal mines are operating steadily, and the coal is all shipped to the lakes over the Lake Erie, Alliance & Wheeling route.

Seventy-five to 80 new houses have been erected in town this summer, and still more are building. The number will reach 100 before winter fully sets in. The population of the town is now about 800 and growing steadily. Three years ago there were but two stores. We now have nine stores, butcher shops, two churches, M. E. and Presbyterian, and a national bank.

Edward Calhoun, of Wellsville, visited his father, Emmett Calhoun, of near town, last week.

The Wheeling & Lake Erie, or Wash system, have completed their survey through this section and will build a line up Wolf run to the Magee lands, where a big new coal mine will be opened and a large tipples erected. The road will continue on towards Annapolis, Jefferson county, to tap other important coal lands.

### CHAFINSVILLE LAD MEETS WITH PAINFUL INJURY

James Wilkes Peculiarly Hurt While  
Playing With Some Compan-  
ions at His Home.

While playing with some compan-  
ions at the home of his parents in  
Chafinsville, James Wilkes, a 15-year-  
old lad, met with a peculiar accident  
yesterday afternoon, which may be at-  
tributed to serious results. As it is,  
he is laid up with a jagged hole, nearly  
an inch in diameter and extending al-  
most four inches, in his right thigh.  
Unless blood poisoning or some other  
complication sets in, the lad will re-  
cover.

Just how the accident occurred is  
not clear. The boys were romping  
around the room and in some way  
young Wilkes fell backward, striking  
his thigh against the broken end of a  
chair rung. Although blunt at the  
end, the rung penetrated the flesh al-  
most to the bone.

The lad was suffering intense pain  
when Dr. Hendershot arrived to dress  
the wound. The jagged hole was thor-  
oughly cleansed and probed for any  
splinter of wood or part of the cloth-  
ing that might have remained when  
the rung was withdrawn from the  
flesh. Wilkes is resting easy today.

### B. A. C. Could Not Play.

There was no game Saturday at the  
Laughlin grounds, the B. A. C. team  
appearing two men short. Manager  
Bridge was one of the absentees and  
the other players refused to go into  
the contest without him. The crowd  
was much disappointed.

### Quarantine Raised Tomorrow.

It was announced this morning that  
the quarantine of the home of Mr. and  
Mrs. Henry Prescott, of Pennsylvania  
avenue, would be removed tomorrow.  
Mrs. Prescott has entirely recovered  
and there is now no danger of the in-  
fection spreading.

A fine son was born Saturday to Mr.  
and Mrs. Householder, of Elm street,  
and a daughter was born this morning  
to Mr. and Mrs. David McCrea, of First  
avenue.

### Final Account Filed.

Three of the heirs of the late Bar-  
nett Smelzenbaugh, having attained  
their majority, Walter C. Supplee, who  
has acted as their guardian, has filed  
his final account and asked to be re-  
lieved as to them. One minor heir  
remains and his guardianship will be  
continued as relates to him. The es-  
tate is valued at about \$2,000 and is  
in East End property.

### Bought a Farm.

William Finley, of St. George street,  
one of the best known and best liked  
citizens of the East End, has purchased  
a fine farm near Frankfort Springs  
and was moving to it this morning,  
in spite of the rain. Mr. Finley will  
spend most of his time at his new  
acquisition. His many friends sincerely  
regret his departure.

### Public Sale of Real Estate.

Walter C. Supplee, as administrator  
of the estate of the late H. Moore Ras-  
son, will offer at public sale on No-  
vember 28 the lot at the corner of  
First avenue and Railroad street. The  
appraisal places the value at \$800,  
but it will likely sell for at least \$1,000.  
Mr. Supplee will act as auctioneer.

### Meeting Tonight.

Pan-American Court, Tribe of Ben  
Hur, will hold a regular meeting to-  
night. Six candidates are to be in-  
troduced for Rock Springs court No. 40,  
which was formed Saturday night.  
Next Saturday night the Pan-American  
degree team will do some work in  
Chester for the new tribe.

## ANNUAL MEETING OF ENGINEERS

State Convention to Be Held in  
Canton on Saturday  
Next.

### THE IMPORTANT BUSINESS

Will Receive Consideration And Of-  
ficers Will Be Chosen—A Largely  
Attended And Very Important  
Meeting Is Anticipated.

Invitations have been received by  
members and others in this city for  
the seventh meeting of the Ohio So-  
ciety of Mechanical, Electrical and  
Steam Engineering to be held at Can-  
ton Saturday, November 21. East Liv-  
erpool will be represented by a large  
number of craftsmen from the  
branches included in the society's  
makeup.

The association, as the invitation in-  
dicates, has been in existence for sev-  
eral years and has worked invalu-  
able good to the members connected  
with it. The objects of the society  
are to promote the practice and the-  
ory of the economical operation and  
management of steam power plants  
and allied sciences connected with en-  
gineering, both in construction and op-  
eration, by means of meeting for so-  
cial intercourse and the reading and  
discussion of papers pertaining to  
steam, electrical and mechanical en-  
gineering.

The invitation is addressed to engi-  
neers, steam, mechanical and electri-  
cal, shop superintendents and man-  
agers, and asks them to come to the  
meeting and hear practical talks by  
practical men along the lines of ad-  
vancement in the power plants and  
factories in general.

The first session will be held at 9  
o'clock in the morning, and will be de-  
voted to general business of the or-  
ganization. At the afternoon session,  
which will be convened at 1 o'clock,  
addresses will be made by Examiner  
Elmer E. Miller, of Canton; S. R.  
Bartlett, of Cleveland; George G. Ben-  
nett, of Cleveland; H. F. Bergner, of  
Akron; Lawrence Kirk, of Pittsburg;  
P. E. Moeck and N. D. Travis.

The first business to be transacted  
at the evening session will be the elec-  
tion of officers. This will be followed  
by more papers and addresses from  
the following well known men: R. H.  
Probert, of Akron; Robert G. Ingleson  
of Cleveland. A report will be made  
on boiler ratings by a committee ap-  
pointed for that purpose, and the  
meeting will resolve itself into a so-  
cial session. An elaborate banquet  
will be served and an extra effort will  
be made to have the visitors enjoy  
themselves.

It is thought the meeting to be held  
at Canton will be the best attended  
and most profitable ever conducted.  
The arrangements are in the hands of  
the following committee: M. J. Ho-  
gan, W. D. Theobald, L. B. Ohlinger,  
Phil E. Moeck, of Canton.

### Denmark Celebrates Anniversary.

Copenhagen, Nov. 15.—Feats were  
held throughout Denmark Sunday in  
honor of the fortieth anniversary of  
King Christian's accession to the  
throne, the populations everywhere  
rendering homage to their aged and  
beloved sovereign, King Christian,  
who is in excellent health, desired to  
spend the day quietly with his family  
at Fredensborg castle, but with-  
standing this desire an enormous  
crowd went to the castle and cheered  
him and he was compelled several  
times to return his thanks.

"I owe my whole life to Burdock  
Blood Bitters. Scrofulous sores cov-  
ered my body. I seemed beyond cure.  
B. B. B. has made me a perfectly well  
woman." Mrs. Chas. Hutton, Berville,

### Royalty Visiting England.

Rome, Nov. 15.—King Victor Em-  
manuel and Queen Helena left for  
London. There was no demonstration,  
as their departure was kept strictly  
private. Their majesties were accom-  
panied by Signor Titttoni, minister of  
foreign affairs, and the members of  
the civil and military households.

Italian Pastor Missing.  
New York, Nov. 15.—No trace has  
yet been found of the Rev. Giuseppe Ci-  
cchione, pastor of the Italian church  
at Williamsbridge, who disappeared  
on Friday night under circumstances  
that led to the fear that he had been  
kidnaped and was being held for ran-  
som.

## SPECIALISTS IN CHRONIC AND PELVIC DISEASES.

## THE FRANCE MEDICAL INSTITUTE.

Established 1886. Largest Practice and Most Complete Institution of its kind in  
the United States. Our record of cures is second to none. Our practice extends  
not only throughout the United States, Canada, and Mexico, but also includes  
prominent physicians, as being the most complete and successful treatment known to the medical world, for diseases of men and women.  
We are located in the city of Columbus, Ohio, in the First National Bank, or any bank or reputable business house in  
Columbus, Ohio; besides, any reliable mercantile agency can be consulted as to our financial standing.

### NO MONEY REQUIRED OF RESPONSIBLE PARTIES TO COMMENCE TREATMENT.

**WE TREAT AND CURE** all curable diseases of the stom-  
ach, Constipation, Piles, Diarrhea; Eye and Ear Diseases; Heart and Liver  
Diseases; Blood and Skin Diseases, such as Scrofula, Ulcers, Eczema, Ring-  
worm, etc. Female Diseases, especially those cases which have baffled the skill of  
other physicians. Epileptic Fits, Rupture, permanently cured by a new  
method. Brain and Nervous Diseases, Paralysis, Locomo-  
tion, etc. Throat, Lung and Nasal Diseases, Frequent and  
without the use of a knife. Kidney and Bladder Diseases, Bright's Disease,  
Diabetes, Inflammation of the Bladder, Enlarged Prostate, Frequent and  
tard, Bronchitis, Asthma, Consumption, Deafness, etc., cured by our Ori-  
ginal system of home treatment. Rheumatism: Our Special Treatment for  
Rheumatism is the most successful known.

It costs no more to employ an expert than to risk your life with an  
inexperienced physician.  
**IMPORTANT TO LADIES.** After years of experience, we  
know for all diseases peculiar to the sex. Female diseases the greatest  
from the first application. Our special treatment completely dissolves the uterus  
and restores it to its normal position. The cure is effected by home treatment; entirely  
harmless and easily applied. You may consult us in confidence, no matter  
what the trouble may be. Consultation and correspondence free and  
strictly confidential.

**THE FRANCE URETHRAL TREATMENT** is a medicated Bougie for the cure of Stricture and all forms of Diseases of the Bladder, Urethra, and  
Prostate Gland. The Bougies are inserted into the urethral canal upon retiring at night; they slip into position without the slightest effort, requiring  
a short time to dissolve. They act like a mild electric current, invigorating and imparting vim and snap to the entire body. The curative effect is felt  
Treatment by Correspondence. The price of the medicine should be sent from two to four copies of  
cured hundreds of cases have never seen. Write for book of 100 pages and list of 200 questions. Correspondence, Consultation and Examination

# Liquozone Cost \$100,000

Yet We Will Buy a 50c. Bottle and Give it to You.

This company, composed of business,  
professional and medical men of ability,  
paid \$100,000 for the right to make  
Liquozone. That is the highest price  
ever paid for the rights in one country on  
any scientific discovery. It was paid by  
us, after years of experiment with it, be-  
cause Liquozone alone can kill inside  
germs without killing the tissues, too.  
Nothing else can destroy the cause of any  
germ disease.

### Liquid Oxygen.

Liquozone is simply liquid oxygen—no  
drugs, no alcohol in it. It is the dis-  
covery of Pauli, the great German chem-  
ist, who spent 20 years on it. His object  
was to get such an excess of oxygen in  
the blood that no germ could live in  
any membrane or tissue.  
Liquozone does that. We spend 14  
days in making each bottle of it, but the  
result is a germicide so certain that we  
publish on every bottle an offer of \$1,000  
for a disease germ that it cannot kill.

### Kills All Germs.

Any drug that kills germs is a poison  
to you and it cannot be taken internally.  
Medicine never destroys inside germs.  
Liquozone kills them with oxygen—a  
tonic to you—the very source of vitality.  
It kills them because germs are vegetables,

### Germ Diseases.

These are the known germ diseases.  
All that medicine can do for these troubles  
is to help Nature overcome the germs,  
and such results are indirect and un-  
certain. Liquozone kills the germs,  
wherever they are, and the results are in-  
evitable. By destroying the cause of the  
trouble, it invariably ends the disease,  
and forever.

## The Druggist's Help

When sick you want the best physician, and the best physician requires the aid of the best druggist. Pharmacy is now a more exacting science than it used to be. New discoveries, new remedies and new ideas require the modern druggist to be up to date.

This is a thoroughly modern store. It exemplifies all that is latest and best on the professional side of pharmacy. Those who are careful in their drug buying, who want to feel secure, can find good reasons for bringing us their prescriptions.

### TO SUBSCRIBERS.

Subscribers who do not get their papers promptly or who miss copies, should at once report the fact to the News Review circulation department. Do not complain to the carriers, but notify the News Review, and the matter will receive immediate attention.

### AT THE THEATER

If a census were taken of all who had witnessed the great production of Wilson Barrett's marvellously impressive religious drama, "The Sign of the Cross," it would be shown that literally millions had seen and admired this wonderful play. It has been recognized as the greatest of all dramatic successes nearly all the world over, and in England and America especially is its foothold so strong that its triumphant success promises to endure for ages. It is as powerful now as an attraction for all classes for the theatergoer, and those who except in the case of "The Sign of the Cross" are classed as non-theatergoers. At the Grand October 21.

"David Harum" is said to owe its remarkable success to the fact that it sticks to the book from which it is taken, and furthermore that it is full of actual, concrete, real human nature. It boasts of no exaggeration. All of the people who move through its story are types that every one has seen who has ever lived in a small town. No more humorous book than "David Harum" was written in years, and no more humorous play than "David Harum" has been unfolded before the public in a generation. At the Grand Friday night. Watch for the opening sale of seats.

"Foxy Grandpa" has been a tremendous success for the past two years. It is replete with catchy musical numbers, graceful dances and comic surprises. The public's interest is stimulated each year by the management adding new songs, new music and by "Foxy Grandpa" adding new tricks to catch his irrepressible grandsons, Chub and Bunt. E. J. Groh will again assume the role of "Foxy Grandpa," the same as for the past season. At the Grand tonight.

The folly comedy coming tonight, "Foxy" and Chub and Bunt, with their jokes and tricks, will be much in evidence again, of course never too much so. There is more of a plot than is expected in plays of this kind. Good-olby Goodman, "grandpa," has taken his grandsons to a Vermont summer hotel, where he does his utmost for their enjoyment and in that is assisted by his private secretary, Polly Bright. Don't miss the funmakers.

If all the good things said of Al W. Martin's "Uncle Tom's Cabin" company by the press of other cities are true and we have no doubt they are, the Grand opera house on next Thursday night will have an attraction that should draw universal patronage. In point of size and equipment the Martin company is said to be one of stage-land's biggest offerings. A matinee will be given Thursday afternoon.

### New Kind of Life Insurance.

For twenty five cents you can insure yourself and family against any cause resulting from an attack of bowel complaint during the summer months. That is the price of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that can always be depended upon even in the most severe and dangerous cases. It is equally valuable for children and adults. When reduced with water and sweetened it is pleasant to take. This remedy has relieved more pain and suffering and saved more lives of more people than any other medicine in the world. It is almost sure to be needed before the summer is over. Buy it now. For sale by Alvin H. Bulger.

Ask to see our \$2.50 and \$3 hats. They are yours this week at \$1.98 at the "Hub."

Charles and D. K. Tarr visited in this city over Sunday. Both young men are on the road, and it has been some time since they have had the opportunity of calling on their friends here.

### New York Horseshow.

New York, Nov. 16.—Horseshow week, marking the opening of the winter season in society, begins today. The show, which is the nineteenth annual exhibition of the National Horse-Show Association of America, open in Madison Square garden and continues until Saturday night.

### Shoe Factories Close.

Quebec, Nov. 16.—Twenty boot and shoe factories in this city have closed down. The shutdown is due to trouble with the machinists, who have refused to abide by an agreement, made in 1901, creating a conciliation board. Five thousand operatives are affected by the shutdown.

### Emperor Can Now Whisper.

Berlin, Nov. 16.—A bulletin issued from the new palace at Potsdam regarding the condition of Emperor William says the wound is nearly healed and that the emperor has been permitted to whisper freely.

### Fatal Domestic Tragedy.

Sloux City, Ia., Nov. 16.—James Dunn, a saloonkeeper, shot his wife and then killed himself. Mrs. Dunn cannot live. The cause of the tragedy was the refusal of Dunn's wife to live with him.

### NOTICE TO TAXPAYERS.

THE COUNTY TREASURER WILL BE IN EAST LIVERPOOL AT THE OFFICE OF THE POTTERS' BUILDING & SAVINGS COMPANY ON WEDNESDAY AND THURSDAY, NOVEMBER 18 AND 19, 1903, FOR THE PURPOSE OF RECEIVING TAXES.

### Industrial Plants Burned.

### Powell Carries His Point.

San Domingo, Nov. 16.—United States Minister Powell has finally carried his point against the Dominican government that it should agree to the provisions of the protocol regarding the San Domingo Improvement company.

### Demand Occasions Surprise.

Pekin, Nov. 16.—The demand of the United States government for the opening of Wiju has been received here with surprise. The British and Japanese ministers at Seoul on Oct. 17 asked for the opening of Yongampho. The foreign minister consented, subject to the approval of the emperor, which was withheld. General Wojack, the Russian commander, has arrived at Tien Tsin with a strong suite.

### Queen of the Circus Dead.

New York, Nov. 16.—In her 101st year Mrs. Marie Pigum Harrison, who was in her childhood days petted by George III, king of England, and was one of the old queens of the circus, is dead in Brooklyn. Mrs. Harrison was the daughter of a bootmaker to the king. Fifty years ago there was perhaps no better known woman in the circus business than Mrs. Harrison. Both Mrs. Harrison and her husband were long associated with P. T. Barnum.

### BANKS POOL EARNINGS.

German Financial Institutions Follow Example of Americans.

Berlin, Nov. 16.—The Dresdner bank and the Schaaffhausen bankverein have arranged a community of interests, the agreement to continue for 30 years, beginning January next. Both banks will be operated separately, but the earnings will be pooled and divided in proportion to the capital and reserve fund of each. According to a published statement, the combination amounts approximately to fusion and the securing of all the advantages thereof while avoiding the disadvantages.

The capital of the Dresdner bank is \$32,500,000, while that of the Schaaffhausen bankverein is \$25,000,000. The reserve funds of the two banks amount to \$13,500,000 and their joint capital to \$71,000,000, thus making their union the strongest aggregation of banking capital in the world, with the exception of the bank of England.

### Gave Attorney Merry Chase.

Buffalo, Nov. 16.—Wilbur Ash was arrested when he stepped off a Detroit train. He was wanted for alleged theft of \$2,000 in cash and papers and jewels valued at \$2,250. The complainant is Charles N. Rapp, of this city. An attorney representing Rapp has been chasing Ash from one city to another in Wisconsin, Illinois and Michigan during the last few weeks. The lawyer finally found Ash in Marquette, Mich., where a warrant was sworn out for his arrest. Ash consented to accompany the attorney to Buffalo without waiting extradition proceedings.

### Queen of the Circus Dead.

New York, Nov. 16.—In her 101st year Mrs. Marie Pigum Harrison, who was in her childhood days petted by George III, king of England, and was one of the old queens of the circus, is dead in Brooklyn. Mrs. Harrison was the daughter of a bootmaker to the king. Fifty years ago there was perhaps no better known woman in the circus business than Mrs. Harrison. Pekin, Nov. 16.—The demand of the United States government for the opening of Wiju has been received here with surprise. The British and Japanese ministers at Seoul on Oct. 17 asked for the opening of Yongampho. The foreign minister consented, subject to the approval of the emperor, which was withheld. General Wojack, the Russian commander, has arrived at Tien Tsin with a strong suite.

### Powell Carries His Point.

San Domingo, Nov. 16.—United States Minister Powell has finally carried his point against the Dominican government that it should agree to the provisions of the protocol regarding the San Domingo Improvement company.

### Industrial Plants Burned.

Montreal, Nov. 16.—Fire destroyed Lamel & Co's boot and shoe factory. Loss \$60,000; insurance \$22,000. A warehouse of the Montreal woolen mills was also burned; loss \$10,000; fully insured.

## The Druggist's Help

When sick you want the best  
physician, and the best physi-  
cian requires the aid of the best  
druggist. Pharmacy is now a  
more exacting science than it  
used to be. New discoveries,  
new remedies and new ideas re-  
quire the modern druggist to be  
up to date.

This is a thoroughly modern  
store. It exemplifies all that is  
latest and best on the profes-  
sional side of pharmacy. Those  
who are careful in their drug  
buying, who want to feel secure,  
can find good reasons for bring-  
ing us their prescriptions.

the matter will receive immedi-  
ate attention.

### AT THE THEATER

If a census were taken of all who  
had witnessed the great production of  
Wilson Barrett's marvelously im-  
pressive religious drama, "The Sign of the  
Cross," it would be shown that liter-  
ally millions had seen and admired  
this wonderful play. It has been re-  
cognized as the greatest of all dramatic  
successes nearly all the world over,  
and in England and America espe-  
cially is its foothold so strong that its tri-  
umphant success promises to endure  
for ages. It is as powerful now as an  
attraction for all classes for the thea-  
tergoer, and those who except in the  
case of "The Sign of the Cross" are  
classed as non-theatergoers. At the  
Grand October 21.

"David Harum" is said to owe  
its remarkable success to the fact  
that it sticks to the book from which  
it is taken, and furthermore that it is  
full of actual, concrete, real human na-  
ture. It boasts of no exaggeration. All  
of the people who move through its  
story are types that every one has  
seen who has ever lived in a small  
town. No more humorous book than  
"David Harum" was written in years  
and no more humorous play than "Da-  
vid Harum" has been unfolded before  
the public in a generation. At the  
Grand Friday night. Watch for the  
opening sale of seats.

"Foxy Grandpa" has been a tremen-  
dous success for the past two years.  
It is replete with catchy musical num-  
bers, graceful dances and comic sur-  
prises. The public's interest is stimu-  
lated each year by the management  
adding new songs, new music and by  
"Foxy Grandpa" adding new tricks to  
catch his irrepressible grandsons,  
Chub and Bunt. E. J. Groh will again  
assume the role of "Foxy Grandpa,"  
the same as for the past season. At  
the Grand tonight.

The folly comedy coming tonight,  
"Foxy" and Chub and Bunt, with their  
gags and tricks, will be much in evi-  
dence again, of course never too much  
so. There is more of a plot than is  
expected in plays of this kind. Good-  
elby Goodman, "grandpa," has taken  
his grandsons to a Vermont summer  
hotel, where he does his utmost for  
their enjoyment and in that is assisted  
by his private secretary, Polly Bright.  
Don't miss the funmakers.

If all the good things said of Al W.  
Martin's "Uncle Tom's Cabin" com-  
pany by the press of other cities are  
true and we have no doubt they are,  
the Grand opera house on next Thurs-  
day night will have an attraction that  
should draw universal patronage. In  
point of size and equipment the Mar-  
tin company is said to be one of stage-  
land's biggest offerings. A matinee  
will be given Thursday afternoon.

after a visit with her mother, Mrs.  
E. J. Grizzell, who accompanied her  
home and will remain a few days.

Charles and D. K. Tarr visited in  
this city over Sunday. Both young  
men are on the road, and it has been  
some time since they have had the op-  
portunity of calling on their friends  
here.

### New York Horseshow.

New York, Nov. 16.—Horseshow  
week, marking the opening of the win-  
ter season in society, begins today.  
The show, which is the nineteenth an-  
nual exhibition of the National Horse-  
show Association of America, open in  
Madison Square garden and continues  
until Saturday night.

### Shoe Factories Close.

Quebec, Nov. 16.—Twenty boot and  
shoe factories in this city have closed  
down. The shutdown is due to trou-  
ble with the machinists, who have re-  
fused to abide by an agreement, made  
in 1901, creating a conciliation board.  
Five thousand operatives are affected  
by the shutdown.

### Emperor Can Now Whisper.

Berlin, Nov. 16.—A bulletin issued  
from the new palace at Potsdam re-  
garding the condition of Emperor Wil-  
liam says the wound is nearly healed  
and that the emperor has been per-  
mitted to whisper freely.

### Fatal Domestic Tragedy.

Sioux City, Ia., Nov. 16.—James  
Dunn, a saloonkeeper, shot his wife  
and then killed himself. Mrs. Dunn  
cannot live. The cause of the trag-  
edy was the refusal of Dunn's wife to  
live with him.

### BANKS POOL EARNINGS.

German Financial Institutions Follow  
Example of Americans.

Berlin, Nov. 16.—The Dresdner bank  
and the Schaaffhausen bankverein  
have arranged a community of inter-  
ests, the agreement to continue for 30  
years, beginning January next. Both  
banks will be operated separately, but  
the earnings will be pooled and divid-  
ed in proportion to the capital and re-  
serve fund of each. According to a  
published statement, the combination  
amounts approximately to fusion and  
the securing of all the advantages  
thereof while avoiding the disadvan-  
tages.

The capital of the Dresdner bank is  
\$32,500,000, while that of the Schaaf-  
hausen verein is \$25,000,000. The re-  
serve funds of the two banks amount  
to \$13,500,000 and their joint capital  
to \$71,000,000, thus making their union  
the strongest aggregation of banking  
capital in the world, with the excep-  
tion of the bank of England.

### Gave Attorney Merry Chase.

Buffalo, Nov. 16.—Wilbur Ash was  
arrested when he stepped off a De-  
troit train. He is wanted for alleged  
theft of \$2,000 in cash and papers and  
jewels valued at \$2,250. The com-  
plainant is Charles N. Rapp, of this  
city. An attorney representing Rapp  
has been chasing Ash from one city to  
another in Wisconsin, Illinois and  
Michigan during the last few weeks.  
The lawyer finally found Ash in Mar-  
quette, Mich., where a warrant was  
sworn out for his arrest. Ash consented  
to accompany the attorney to Buf-  
falo without waiting extradition pro-  
ceedings.

TRADES UNION COUNCIL

MONDAY, NOVEMBER 16, 1903.

Senator Hansbrough's bill to amend

the laws concerning the disposal of the

government timber lands has now been

laid before the senate. Its purpose

is to stop speculations and frauds, and

it involves a radical change from pre-

vious ideas as to the proper method

of disposing of the public domain. It

would appear ridiculous to try to en-

courage forestry and protect the wood-

lands and continue to sell off timber

lands at \$2.50 an acre, regardless of

their value.

The Panama matter has brought out

all the opponents of the administration

who are actuated by base partisan

motives rather than patriotic ones.

Reference is here made to those who

oppose an official act, not because of

the act itself, but because it was done

by an executive to whom they are op-

posed politically. Let there be none

of the critics who dares to accuse

## The Druggist's Help

When sick you want the best physician, and the best physi-  
cian requires the aid of the best  
druggist. Pharmacy is now a  
more exacting science than it  
used to be. New discoveries,  
new remedies and new ideas re-  
quire the modern druggist to be  
up to date.

This is a thoroughly modern  
store. It exemplifies all that is  
latest and best on the profession-  
al side of pharmacy. Those  
who are careful in their drug  
buying, who want to feel secure,  
can find good reasons for bring-  
ing us their prescriptions.

### AT THE THEATER

If a census were taken of all who  
had witnessed the great production of  
Wilson Barrett's marvelously impres-  
sive religious drama, "The Sign of the  
Cross," it would be shown that liter-  
ally millions had seen and admired  
this wonderful play. It has been re-  
cognized as the greatest of all dramatic  
successes nearly all the world over,  
and in England and America especial-  
ly is its foothold so strong that its tri-  
umphant success promises to endure  
for ages. It is as powerful now as an  
attraction for all classes for the thea-  
tergoer, and those who except in the  
case of "The Sign of the Cross" are  
classed as non-theatergoers. At the  
Grand October 21.

"David Harum" is said to owe  
its remarkable success to the fact  
that it sticks to the book from which  
it is taken, and furthermore that it is  
full of actual, concrete, real human na-  
ture. It boasts of no exaggeration. All  
of the people who move through its  
story are types that every one has  
seen who has ever lived in a small  
town. No more humorous book than  
"David Harum" was written in years  
and no more humorous play than "Da-  
vid Harum" has been unfolded before  
the public in a generation. At the  
Grand Friday night. Watch for the  
opening sale of seats.

"Foxy Grandpa" has been a tremen-  
dous success for the past two years.  
It is replete with catchy musical num-  
bers, graceful dances and comic sur-  
prises. The public's interest is stimu-  
lated each year by the management  
adding new songs, new music and by  
"Foxy Grandpa" adding new tricks to  
catch his irrepressible grandsons,  
Chub and Bunt. E. J. Groh will again  
assume the role of "Foxy Grandpa,"  
the same as for the past season. At  
the Grand tonight.

The folly comedy coming tonight,  
"Foxy" and Chub and Bunt, with their  
jokes and tricks, will be much in evi-  
dence again, of course never too much  
so. There is more of a plot than is  
expected in plays of this kind. Good-  
elby Goodman, "grandpa," has taken  
his grandsons to a Vermont summer  
hotel, where he does his utmost for  
their enjoyment and in that is assisted  
by his private secretary, Polly Bright.  
Don't miss the funmakers.

If all the good things said of Al W.  
Martin's "Uncle Tom's Cabin" com-  
pany by the press of other cities are  
true and we have no doubt they are,  
the Grand opera house on next Thurs-  
day night will have an attraction that  
should draw universal patronage. In  
point of size and equipment the Mar-  
tin company is said to be one of stage-  
land's biggest offerings. A matinee  
will be given Thursday afternoon.

### BANKS POOL EARNINGS.

German Financial Institutions Follow  
Example of Americans.

Berlin, Nov. 16.—The Dresdner bank  
and the Schaaffhausen bankverein  
have arranged a community of inter-  
ests, the agreement to continue for 30  
years, beginning January next. Both  
banks will be operated separately, but  
the earnings will be pooled and divid-  
ed in proportion to the capital and re-  
serve fund of each. According to a  
published statement, the combination  
amounts approximately to fusion and  
the securing of all the advantages  
thereof while avoiding the disadvant-

ages. The capital of the Dresdner bank is  
\$32,500,000, while that of the Schaaff-  
hausen bankverein is \$25,000,000. The re-  
serve funds of the two banks amount  
to \$13,500,000 and their joint capital  
to \$71,000,000, thus making their union  
the strongest aggregation of banking  
capital in the world, with the excep-  
tion of the bank of England.

**Gave Attorney Merry Chase.**

Buffalo, Nov. 16.—Wilbur Ash was  
arrested when he stepped off a De-  
troit train. He is wanted for alleged  
theft of \$2,000 in cash and papers and  
jewels valued at \$2,250. The com-  
plainant is Charles N. Rapp, of this  
city. An attorney representing Rapp  
has been chasing Ash from one city to  
another in Wisconsin, Illinois and  
Michigan during the last few weeks.  
The lawyer finally found Ash in Mar-  
quette, Mich., where a warrant was  
sworn out for his arrest. Ash consented  
to accompany the attorney to Buf-  
falo without waiting extradition pro-  
ceedings.

## DECISION OF THE BOARD

Based on the Fact That Miss Anna Bambrick Had No Certificate—Reversed After Much Discussion, But Clerk Refuses to Honor the Order.

The board of education whose duty it is to direct the destinies of the Chester schools, and the faculty of that institution are just now facing a condition which, for novelty and extraordinary features, has no equal in the educational annals of West Virginia, so far as is known.

It has not been known for a long time that progress in the schools of the state has been seriously impaired by the too rigid enforced policy of economy practiced by the several educational boards in the matter of salary for instructors. Months ago it was reported that there was not a person, male or female, in the entire state possessing the necessary qualifications to entitle them to teach, but had been retained for the present fall and winter term. There were plenty who were competent in every way to take up the work, but the salaries fixed by the various boards was not sufficiently large to induce any one to compete for places or even stand an examination. Therefore the number qualifying as teachers and securing certificates as such was very small—not sufficient, in fact, to go around. Many schools in the state were hampered in this way to such a degree that it became necessary to consolidate two and sometimes three departments in order to give instruction.

This was the condition when, a few weeks ago, the Chester school author-

## WHAT IS DYSPEPSIA?

Extreme Thinness a Symptom—Scientific Way By Which It Can Be Cured.

Mi-na cures dyspepsia by the only natural method of giving tone and strength to the digestive organs, soothing and healing the irritated and inflamed conditions, and mingling with the food so that it is more easily assimilated and digested.

Extreme thinness and emaciation is one of the principal symptoms of indigestion, but many of the following symptoms are also in evidence:

Defects of vision or hearing  
Flatulency  
Heartburn  
Nausea  
Gripes  
Constipated tongue  
Sour taste in the mouth  
Diarrhoea  
Dry skin  
Nervousness  
Sick headache  
Congestion of the head  
Vertigo or dizziness  
Drowsiness  
Sleeplessness  
Papillation of the heart

Mi-na will cure dyspepsia. A 50c box will give strength and tone to the digestive organs and aid the food to assimilate, while its continued use for a reasonable length of time will bring back natural weight and restore health and strength.

A few days use of Mi-na will show a marked gain in health and in a few weeks the cure will be complete. This is a strong statement, but Will Reed emphasizes it by agreeing to refund your money if Mi-na does not do all that is claimed for it.

## THE OLD RELIABLE

Absolutely Pure  
THERE IS NO SUBSTITUTE

ties were compelled, owing to the increased patronage of the schools here to add another department to the central building. When it had been completed, which was some time after the convening of the fall term, Supt. Miller and the board of education were confronted with an obstacle in the shape of finding some one to take charge of the room. Diligent inquiry was made and the aid of every one connected with educational work in this section of the state was invoked, but in vain. No teacher with the necessary certificate could be found, and in his desperation Prof. Miller appealed to State Superintendent Miller. In this communication the local superintendent explained the situation in a comprehensive manner, stating that he had employed Miss Anna Bambrick to take charge of the department until such time as an examination could be held and the lady given an opportunity to secure a certificate. In replying to the letter the state official gave it as his opinion that the proceeding, while irregular in a sense, was unavoidable. He could see no other way out of the dilemma but to continue as they had begun until another examination was held.

Prof. Miller consulted with the board in every move that was made, and the members were acquainted with every detail of the arrangement. He was, therefore, surprised beyond measure when the first month's salary was due Miss Bambrick to learn that Justice A. G. Pugh, clerk of the board of education, refused to pay the bills along with that of the other teachers in the Chester schools. Prof. Miller asked the clerk upon what grounds the refusal was made, and was told that the teacher had been hired illegally. She had no certificate to teach and he said he proposed to withhold the salary until the proceeding was regular. He finally consented to honor the bill if the board saw fit to countersign it, and the superintendent lost no time in having this formality complied with. He presented the account to R. B. Brown and Carlisle Aiken, two members and a majority of the board, and they promptly signed the order.

In the meantime several middle-class parties in Chester busied themselves in stirring up the muddle by urging the clerk to take a stand against the payment of the bill. Consequently when Mr. Miller returned with the order properly signed by the members, he still refused to pay over the money. There the matter rests.

An examination is to be held in Hancock county in two weeks. Miss Bambrick may take the tests then if she so desires. The papers in this examination must be sent to state headquarters, where the ratings are made. This operation will require two weeks more; so that, as matters now stand, no relief for the embarrassing situation will be possible under a month. Meantime Miss Bambrick is deprived of the money she has honestly earned in spite of the technicality, and which she may never get.

By direction of the board of education, Mrs. D. D. Mercer, formerly of Holiday's Cove, but recently residing in Chester, was placed in charge of

the room lately presided over by Miss Bambrick. This arrangement is said to be only temporary, and that Miss Bambrick will be reinstated if she sees fit to stand the examination which will be held November 26 and 27.

## THE GEER WELL

Has Been Shot and Promises to Yield Five to Ten Barrels Per Day.

The Geer well, in which a number of Chester people are interested, was shot Saturday afternoon, and there is every indication that a good producer has been struck. Interested parties were out to the well yesterday morning, and report that between 300 and 400 feet of oil is standing in the well.

The company proposes to bail out the well, and work to this end was started today. When the bailing has been completed pumping apparatus will be installed, and the exact value of the well ascertained. It is estimated by experts that it will be good for from five to ten barrels a day.

A fairly good supply of gas has been found by the drillers on the Shrader property below First street, and it will be piped to the residence at once. It is stated the supply is about on a par with that developed on the James Murray place in the upper end of town.

## Novel Entertainment.

A novel entertainment and social will be held by the Young People's society of the Chester U. P. church next Friday evening. Each church attending is expected to bring with him or her as many pennies as there are years in their age. The money thus derived will be devoted to a worthy cause, and the attendance will doubtless be large.

## Social at Presbyterian Church.

All arrangements have been completed for the social to be given at the Chester Presbyterian church tomorrow evening. Oysters will be served, and a special effort will be made to have the guests enjoy the evening. Competent committees have been placed in charge of the work, and the affair promises to be a complete success.

## CHESTER NOTES.

W. C. Bell and Edward Dunlevy are guests of friends in Washington county, Pa.

Mr. and Mrs. Jesse Pugh and Justice A. G. Pugh are today moving into their new home on Montana avenue.

William Williams, who has been ill at his home in Lawrenceville for several days, is slowly improving.

Mr. and Mrs. John Householder have returned to their home at Ironside after a visit with Chester friends.

The dance held at Rock Springs Saturday night was well attended, and those present spent a very enjoyable evening.

Mrs. Robert Dunn, of Dunn street, is confined to her home with an attack of stomach trouble. Her condition is serious.

Building operations were suspended today on the new addition being built to the rear of Riley & Greek's news stand on First street.

Frank McCoy has been given charge of the branch establishment of the Chester Provision company located in the Thompson block on First street.

Mr. McCoy is a good salesman, and has a large circle of friends.

Samuel Murray, wife and daughter, Mr. and Mrs. Samuel Jackson and Miss Sadie McMillan, of Grove City, who has been the guest of the latter couple for several days, went to Pittsburgh this afternoon where they will spend some time.

Arrangements have been made by the Chester council, Junior Mechanics, to attend divine services at the M. E. church next Sunday. Rev. W. Bruce Gillis, pastor of the U. P. church, will preach the sermon which will be appropriate to the occasion.

## Eskimo Gambling.

Those who have spent any time in the north polar regions and become acquainted with the life and habits of the Eskimo know that he is by nature a gambler. A favorite method of gambling that affords much amusement is to take one of the long handled musk ox cups and, partly filling it with soup or stew made from the seal or walrus, whirl it on the top of a flat rock, about which are grouped those who have entered the game. The person to whom the handle of the cup points when it has stopped turning is the winner of the contents of the cup.

When the winner has emptied the cup then another article, not always or necessarily a soup or stew, is put into it for the next winner. If, however, the article is too large to put into the cup—for instance, a walrus tusk or seal hide or what else—then it may be represented by something else. The cup is then sent spinning again, and when it comes to a rest the winner takes the prize. One of the most valuable prizes, next to a gun or harpoon, is a needle, especially when one is very much needed in the household.

## WELLSVILLE

## THIEF IN THE CELLAR

An Exciting Occurrence at the Home of Charles Kelly on Commerce Street.

Burglars are beginning to ply their avocation in Wellsville, and a very bold thief attempted to effect an entrance into the home of Charles Kelly, Tenth and Commerce streets, the other night. Mr. Kelly's wife being dead he has a housekeeper. The woman heard the prowler in the cellar, and though badly scared, she ran to the cellar way entrance to the upstairs and held the door tightly. The would-be burglar tried to push it open, but the woman being rather large, her weight was too much for him. He finally became frightened and made a hasty exit, but not before the woman had a chance to look at his rapidly fleeing form scurrying away in the midnight darkness.

Mr. Kelly was not at home, or perhaps the intruder would have met with a warm reception. The thief is thought to have been a tramp, who has been prowling around about town for some days. Tramps are becoming more numerous, and nightly they roost above and below town around fires which they build to keep them warm. Railway watchmen find a number snoozing in box and passenger cars. People should be on the lookout for sneak thieves at this season of the year, for on the approach of cold weather they are doubly anxious to make a raise to get into winter quarters in the big cities.

## HIT WITH A BRICK

Wilbur Baker Badly Injured in a Fight With Sam College.

Sam College and Wilbur Baker became involved in a scrap on Third street Saturday night about 10 o'clock, and when College had Baker down on the pavement he hit him over the head with a brick, making a bad wound above his right eye, and rendering him unconscious for a time. A bystander interfered and held College until the arrival of Officer Melvaine, who in attempting to arrest College slipped and fell to the street. He was finally landed, however, in the city lockup.

Baker was taken home and Dr. Hutchison summoned. He had received and he was put under the influence of chloroform and several stitches made to close the wound. It was thought for a time that Baker's skull had been fractured, but Sunday he rested well and Dr. Hutchison thinks no serious results will follow, although his wounds below and above the eye will disfigure his face for some time.

## STREET PAVING

The Improvement of Steubenville Street a Problem for Council to Solve.

Council will perhaps have a very knotty problem to untangle at the adjourned session, which will probably be held Tuesday or Wednesday evenings at the call of the mayor. Three petitions have been circulating in the West End in regard to paving Steubenville street, from the end of Clark avenue to the railway crossing, about a quarter of a mile south to the corporation line. Two of these petitions are for paving and one against. There are only 11 property holders interested, but now it has been developed that a number of the same parties have signed all three of the petitions.

The under current of opinion is that the street should be paved, but the problem before council will be whether the bona fide property holders want the street paved or not.

## Would Not Pay.

An East Liverpool citizen, intoxicated, went into Henry Wooster's restaurant in the West End yesterday and ordered a lunch. After eating he refused to pay. Mr. Wooster said he would take the price out of his manly form. The fellow replied that would suit him. Wooster gave him a solar plexus, and landed him on the floor, and grasping him, landed him out on Clark avenue.

## Dollar Social.

## A POPULAR PRELATE.

Mgr. Thomas J. Conaty, Bishop of Los Angeles.

Mgr. James J. Conaty, bishop of Los Angeles, who since his elevation to the episcopal chair a few months ago has become immensely popular in his diocese, is a noted educator and scholar and one of the best known prelates of the Roman Catholic hierarchy of the United States.

Bishop Conaty succeeded Rev. Dr. Keane as rector of the Catholic university at Washington in 1896, retaining that position until named for the see of Los Angeles. He was one of the organizing spirits of the Catholic Summer school at Plattsburg, N. Y., and was its president from 1893 to 1897. He was made a domestic prelate to the pope by the late Leo XIII. and has been otherwise honored by the church. Two years ago he was consecrated titular bishop of Samos by Cardinal Gibbons at Baltimore. This honor was in recognition of his labors in behalf of Catholic education.

Chief Houser was called Saturday afternoon to a home down near Thirtieth street to suppress a domestic row. No arrests were made.

The Brotherhood of Locomotive Firemen No. 96 initiated four new members at last meeting, and is steadily increasing in membership.

The coal and ice firm of Runyon & Riblett's, of Eighteenth street, has tastefully repaired its office. The yards are completely stocked with all grades of coal.

Councilman D. E. McDonald, of the West End, is a very lucky man. He found a fat leather pocketbook Saturday near Twentieth street containing a small sum of money.

The ladies of the Methodist Protestant church will give a supper in city hall Saturday night, November 21. The church is making a special effort to pay off its debt, and are receiving great encouragement.

James Haggerty, ex-marshal of Mingo Junction, has been appointed a guard at the Mansfield reformatory. He passed through Saturday to take the position accompanied by a prisoner sent up from Mingo. He reports the big Mingo steel plant closed down indefinitely.

Miners Will Not Resume Work.

Louisville, Col., Nov. 16.—The official count of the votes cast by the miners of the northern coal district reverses the decision and defeats the proposition for a settlement of the strike. The sub-district board canvassed the vote and announced that the proposition was defeated and there would be no work, but refused to make public the vote.

Working on Wireless Station.

Rome, Nov. 16.—Signor Marconi began work on the powerful wireless station at Pisa, through which it is intended to establish communication with the Argentine republic and later with the United States. When the station is finished it will be inaugurated by King Victor Emmanuel, who will send the first message.

Lost Life in Fire.

Reading, Pa., Nov. 16.—The bicycle vulcanizing shop of Edward Dehart was destroyed by fire and Dehart, who was sleeping in the place, perished in the flames.

President of Bulgarian Senate Dead.

Brussels, Nov. 16.—The death is announced here of the Duc d'Ursel, president of the senate.

A Pretty Compliment.

Sir William Harcourt, a political rival but still an admirer of Disraeli, once paid a pretty compliment to Lady Beaconsfield.

He was dining with the Disraelis and sat beside the hostess, who observed that he was looking at the picture of a lightly robed lady on the wall opposite and said, "It oughtn't to be allowed in here, but it is nothing to the Venus that Dizzy has up in his bedroom." "That I can well believe," replied he with a gallant bow. This was one of the rare occasions on which Disraeli smiled.—Meynell's Biography of Beaconsfield.

A Cent.

A cent is a little thing, but in the aggregate it is mighty. We speak of the "copper cent," but it is not entirely copper. Its composition is 95 per cent copper, 3 per cent tin and 2 per cent zinc. That alloy is in reality bronze, and the official name of the cent is "bronze." There used to be a copper cent, but an act discontinuing its coinage was passed in 1857. For seven years (1857-64) we had a nickel cent and up to 1857 a copper half cent.

## Walking Craze in Paris.

Paris, Nov. 16.—The walking craze continues. Sunday morning nearly a thousand scholars from the higher classes of various schools took part in the competitions, the distance for juniors being seven kilometers and for seniors 15 kilometres over public roads. The organization was perfect and crowds witnessed the starts and finishes. The winners covered their respective distances in good time.

## Revolutionists Attack City.

Washington, Nov. 16.—News of the attack on San Domingo city by the revolutionists reached the state department in a dispatch from Minister Powell. He reported that the revolutionists were attacking the city on three sides. There were no other details. The cruiser Baltimore which was ordered to San Domingo waters is now there so that American interests will be given full protection.

## Asphyxiated in Bathroom.

Nashville, Tenn., Nov. 16.—Samuel W. Dupree, superintendent of city delivery in the Nashville postoffice and nephew of Senator Bate, was found dead in the bathroom of his home. He is supposed to have been asphyxiated by gas fumes from a heating appliance.

## Durand Coming to Washington.

London, Nov. 16.—Sir H. Mortimer Durand, the new ambassador to the United States, will leave for Washington next Saturday. Lady Durand, who has several matters to look after here, will follow her husband later.

## Business Houses Burned.

Tacoma, Nov. 16.—Fire destroyed the buildings occupied by the H. N. Richmond Paper company and the Great Western Store company, causing a loss of about \$75,000.

## Drowned in Bucket of Water.

Atchison, Kan., Nov. 16.—The 2-year-old son of Mr. and Mrs. Martin Graves, near Effington, this county, fell into a half bushel measure of water and was drowned.

## DECISION OF THE BOARD

Based on the Fact That Miss Anna Bambrick Had No Certificate—Reversed After Much Discussion, But Clerk Refuses to Honor the Order.

The board of education whose duty it is to direct the destinies of the Chester schools, and the faculty of that institution are just now facing a condition which, for novelty and extraordinary features, has no equal in the educational annals of West Virginia, so far as is known.

It has not been known for a long time that progress in the schools of the state has been seriously impaired by the too rigid enforced policy of economy practiced by the several educational boards in the matter of salary for instructors. Months ago it was reported that there was not a person, male or female, in the entire state possessing the necessary qualifications to entitle them to teach, but had been retained for the present fall and winter term. There were plenty who were competent in every way to take up the work, but the salaries fixed by the various boards was not sufficient to induce any one to compete for places or even stand an examination. Therefore the number qualifying as teachers and securing certificates as such was very small—not sufficient, in fact, to go around. Many schools in the state were hampered in this way to such a degree that it became necessary to consolidate two and sometimes three departments in order to give instruction.

This was the condition when, a few weeks ago, the Chester school author-

## WHAT IS DYSPEPSIA?

Extreme Thinness a Symptom—Scientific Way By Which It Can Be Cured.

Mi-na cures dyspepsia by the only natural method of giving tone and strength to the digestive organs, soothing and healing the irritated and inflamed conditions, and mingling with the food so that it is more easily assimilated and digested.

Extreme thinness and emaciation is one of the principal symptoms of indigestion, but many of the following symptoms are also in evidence:

Headaches at stomach  
Acidity  
Water-brash  
Spitting up of food  
Cuts  
Sensation of weight  
or heaviness at pit  
of stomach  
Sore mouth  
Constipation  
Sediment in urine  
Night sweats  
Headache  
Cold hands and feet  
Pain under shoulder  
blade  
Pain between shoulders  
Constipation of mind

Defects of vision or hearing  
Flatulency  
Heartburn  
Nausea  
Gripes  
Coated tongue  
Sour taste in the mouth  
Diarrhoea  
Dry skin  
Nervousness  
Sticky head  
Congestion of the head  
Vertigo or dizziness  
Drowsiness  
Sleeplessness  
Palpitation of the heart

Mi-na will cure dyspepsia. A 50c box will give strength and tone to the digestive organs and aid the food to assimilate, while its continued use for a reasonable length of time will bring back natural weight and restore health and strength.

A few days use of Mi-na will show a marked gain in health and in a few weeks the cure will be complete. This is a strong statement, but Will Reed emphasizes it by agreeing to refund your money if Mi-na does not do all that is claimed for it.

## THE GEER WELL

Has Been Shot and Promises to Yield Five to Ten Barrels Per Day.

The Geer well, in which a number of Chester people are interested, was shot Saturday afternoon, and there is every indication that a good producer has been struck. Interested parties were out to the well yesterday morning, and report that between 300 and 400 feet of oil is standing in the well.

The company proposes to bail out the well, and work to this end was started today. When the bailing has been completed pumping apparatus will be installed, and the exact value of the well ascertained. It is estimated by experts that it will be good for from five to ten barrels a day.

A fairly good supply of gas has been found by the drillers on the Shrader property below First street, and it will be piped to the residence at once. It is stated the supply is about on a par with that developed on the James Murray place in the upper end of town.

## Novel Entertainment.

A novel entertainment and social will be held by the Young People's society of the Chester U. P. church next Friday evening. Each guest attending is expected to bring with him or her as many pennies as there are years in their age. The money thus derived will be devoted to a worthy cause, and the attendance will doubtless be large.

## Social at Presbyterian Church.

All arrangements have been completed for the social to be given at the Chester Presbyterian church tomorrow evening. Oysters will be served, and a special effort will be made to have the guests enjoy the evening. Competent committees have been placed in charge of the work, and the affair promises to be a complete success.

## CHESTER NOTES.

W. C. Bell and Edward Dunlevy are guests of friends in Washington county, Pa.

Mr. and Mrs. Jesse Pugh and Justice A. G. Pugh are today moving into their new home on Montana avenue.

William Williams, who has been ill at his home in Lawrenceville for several days, is slowly improving.

Mr. and Mrs. John Householder have returned to their home at Ironside after a visit with Chester friends.

The dance held at Rock Springs Saturday night was well attended, and those present spent a very enjoyable evening.

Mrs. Robert Dunn, of Dunn street, is confined to her home with an attack of stomach trouble. Her condition is serious.

Building operations were suspended today on the new addition being built to the rear of Riley & Greek's news stand on First street.

Frank McCoy has been given charge of the branch establishment of the Chester Provision company located in the Thompson block on First street. Mr. McCoy is a good salesman, and has a large circle of friends.

Semuel Murray, wife and daughter, Mr. and Mrs. Samuel Jackson and Miss Sadie McMillan, of Grove City, who has been the guest of the latter couple for several days, went to Pittsburgh this afternoon where they will spend some time.

Arrangements have been made by the Chester council, Junior Mechanics, to attend divine services at the M. E. church next Sunday. Rev. W. Bruce Gillis, pastor of the U. P. church, will preach the sermon which will be appropriate to the occasion.

## Eskimo Gambling.

Those who have spent any time in the north polar regions and become acquainted with the life and habits of the Eskimo know that he is by nature a gambler. A favorite method of gambling that affords much amusement is to take one of the long handled musk ox cups and, partly filling it with soup or stew made from the seal or walrus, whirl it on the top of a flat rock, about which are grouped those who have entered the game. The person to whom the handle of the cup points when it has stopped turning is the winner of the contents of the cup.

When the winner has emptied the cup then another article, not always or necessarily a soup or stew, is put into it for the next winner. If, however, the article is too large to put into the cup—for instance, a walrus tusk or seal hide or what else—then it may be represented by something else. The cup is then sent spinning again, and when it comes to a rest the winner takes the prize. One of the most valuable prizes, next to a gun or harpoon, is a needle, especially when one is very much needed in the household.

## WELLSVILLE

## THIEF IN THE CELLAR

An Exciting Occurrence at the Home of Charles Kelly on Commerce Street.

Burglars are beginning to ply their avocation in Wellsville, and a very bold thief attempted to effect an entrance into the home of Charles Kelly, Tenth and Commerce streets, the other night. Mr. Kelly's wife being dead he has a housekeeper. The woman heard the prowler in the cellar, and though badly scared, she ran to the cellar way entrance to the upstairs and held the door tightly. The would-be burglar tried to push it open, but the woman being rather large, her weight was too much for him. He finally became frightened and made a hasty exit, but not before the woman had a chance to look at his rapidly fleeing form scurrying away in the midnight darkness.

Mr. Kelly was not at home, or perhaps the intruder would have met with a warm reception. The thief is thought to have been a tramp, who has been prowling around about town for some days. Tramps are becoming more numerous, and nightly they roost above and below town around fires which they build to keep them warm. Railway watchmen find a number snoozing in box and passenger cars. People should be on the lookout for sneak thieves at this season of the year, for on the approach of cold weather they are doubly anxious to make a raise to get into winter quarters in the big cities.

## HIT WITH A BRICK

Wilbur Baker Badly Injured in a Fight With Sam College.

Sam College and Wilbur Baker became involved in a scrap on Third street Saturday night about 10 o'clock, and when College had Baker down on the pavement he hit him over the head with a brick, making a bad wound above his right eye, and rendering him unconscious for a time. A bystander interfered and held College until the arrival of Officer McVaine, who in attempting to arrest College slipped and fell to the street. He was finally landed, however, in the city lockup.

Baker was taken home and Dr. Hutchison summoned. He had revived and he was put under the influence of chloroform and several stitches made to close the wound. It was thought for a time that Baker's skull had been fractured, but Sunday he rested well and Dr. Hutchison thinks no serious results will follow, although his wounds below and above the eye will disfigure his face for some time.

## STREET PAVING

The Improvement of Steubenville Street a Problem for Council to Solve.

Council will perhaps have a very knotty problem to untangle at the adjourned session, which will probably be held Tuesday or Wednesday evenings at the call of the mayor. Three petitions have been circulating in the West End in regard to paving Steubenville street, from the end of Clark avenue to the railway crossing, about a quarter of a mile south to the corporation line. Two of these petitions are for paving and one against. There are only 11 property holders interested, but now it has been developed that a number of the same parties have signed all three of the petitions.

The under current of opinion is that the street should be paved, but the problem before council will be whether the bona fide property holders want the street paved or not.

## Would Not Pay.

An East Liverpool citizen, intoxicated, went into Henry Wooster's restaurant in the West End yesterday and ordered a lunch. After eating he refused to pay. Mr. Wooster said he would take the price out of his manly form. The fellow replied that would suit him. Wooster gave him a solar plexus, and landed him on the floor, and grasping him, landed him out on Clark avenue.

## A POPULAR PRELATE.

Mgr. Thomas J. Conaty, Bishop of Los Angeles.

Mgr. James J. Conaty, bishop of Los Angeles, who since his elevation to the episcopal chair a few months ago has become immensely popular in his diocese, is a noted educator and scholar and one of the best known prelates of the Roman Catholic hierarchy of the United States.

Bishop Conaty succeeded Rev. Dr. Keane as rector of the Catholic university at Washington in 1896, retaining that position until named for the see of Los Angeles. He was one of the organizing spirits of the Catholic Summer school at Plattsburg, N. Y., and was its president from 1893 to 1897. He was made a domestic prelate to the pope by the late Leo XIII, and has been otherwise honored by the church. Two years ago he was consecrated titular bishop of Samos by Cardinal Gibbons at Baltimore. This honor was in recognition of his labors in behalf of Catholic education.

Mrs. Harry Hartford and daughter, of Fifth street, were visiting her parents, Mr. and Mrs. Joseph Chaine, of Toronto, over Sunday.

Chief Houser was called Saturday afternoon to a home down near Thirtieth street to suppress a domestic row. No arrests were made.

The Brotherhood of Locomotive Firemen No. 96 initiated four new members at its last meeting, and is steadily increasing in membership.

The coal and ice firm of Runyon & Riblett's, of Eighteenth street, has tastefully repaired its office. The yards are completely stocked with all grades of coal.

Councilman D. E. McDonald, of the West End, is a very lucky man. He found a fat leather pocketbook Saturday near Twentieth street containing a small sum of money.

The ladies of the Methodist Protestant church will give a supper in city hall Saturday night, November 21. The church is making a special effort to pay off its debt, and are receiving great encouragement.

James Haggerty, ex-marshal of Mingo Junction, has been appointed a guard at the Mansfield reformatory. He passed through Saturday to take the position accompanied by a prisoner sent up from Mingo. He reports the big Mingo steel plant closed down indefinitely.

## Miners Will Not Resume Work.

Louisville, Col., Nov. 16.—The official count of the votes cast by the miners of the northern coal district reverses the decision and defeats the proposition for a settlement of the strike. The sub-district board canvassed the vote and announced that the proposition was defeated and there would be no work, but refused to make public the vote.

A Pretty Compliment. Sir William Harcourt, a political rival but still an admirer of Disraeli, once paid a pretty compliment to Lady Beaconsfield. He was dining with the Disraelis and sat beside the hostess, who observed that he was looking at the picture of a lightly robed lady on the wall opposite and said, "It oughtn't to be allowed in here, but it is nothing to the Venus that Dizzy has up in his bedroom." "That I can well believe," replied he with a gallant bow. This was one of the rare occasions on which Disraeli smiled.—Meynell's Biography of Beaconsfield.

A Cent. A cent is a little thing, but in the aggregate it is mighty. We speak of the "copper cent," but it is not entirely copper. Its composition is 95 per cent copper, 3 per cent tin and 2 per cent zinc. That alloy is in reality bronze, and the official name of the cent is "bronze." There used to be a copper cent, but an act discontinuing its coinage was passed in 1857. For seven years (1857-64) we had a nickel cent and up to 1857 a copper half cent.

## ROVERS TOO FAST FOR CHESTER TEAM

Superior Playing and Strategy Won Them the \$100 Purse.

### CARTWRIGHT'S FIELD GOAL

Was the First Made This Season on the West End Gridiron—Chester Played Fairly Well But Showed a Lack of Practice.

If the Rovers could win a \$100 purse as handily every day as they did Saturday from the Chester eleven at Rock Springs park, they might well wish that the football season endured all the year round instead of for a few weeks. The Chester boys played hard but went down to defeat by a score of 17 to 0. The first 7 points came from a field goal and a safety. The only two plays of the kind at the park this year.

That the Rovers had prepared for a hard struggle was apparent before the first half was fairly begun. After holding Chester for downs, and about to lose the ball in the same way, Cartwright stepped back for a try for a field goal. Quarterback Robbins placed the ball perfectly and Cartwright sent it spinning between the posts for the first field goal of the season. It was a good foot ball.

For a new team Chester played well, not one of the players lacking in courage. A little more practice, one or two spots strengthened and they can come very near holding their own with the Rovers. While the Rovers gained often through their line there was some pretty tackling and in several cases the man with the ball was thrown for a loss.

Right End Harvey played in hard luck. He has made nice gains with end runs this year, but Saturday both times he was given the ball he was nailed behind the line for no gain. Quarterback Robbins carried for several nice advances, but when Lowry tried it he was nailed in his tracks and thrown for a big loss.

Cartwright was a demon at fullback and gained in nearly every scrimmage. Arb was back of the line and played well, considering the length of time he has been out. Hardy had the bulk of the work and he played better than in any game this season. On the line Hughes was the star. In making interference and tackling his work was particularly good. Amos and Robbins were also in fine fettle.

First Half. Cartwright kicked off to the 25 yard line. Chester failed to gain and the Rovers took the ball on downs. There was a fumble on the Rover's first try but Hughes got the ball and gained 3 yards. Cartwright lost 4 trying to clear left end. The ball was on Chester's 15 yard line when Robbins placed it for a kick and Cartwright made a field goal.

Hardy kicked off 30 yards. Adams was held on a line buck and Cunningham made 2 yards through center. Hester got the ball on a fumble. The Rovers then fumbled but Hughes picked up the pigskin and dashed around left end for a 25 yard gain. Chester's official claimed Robbins had tripped Estep and the Rovers were penalized 20 yards from the starting point of the scrimmage. Cartwright recovered the penalty with a 20 yard gain around right end and Robbins cleared left end for 18. Hardy went 1 yard through right tackle and Arb went through the line for 8. Harvey was held on an attempted end run and Robbins failed on a quarterback run. Cartwright tried another field goal but missed. The ball was downed over Chester's goal line, however, for a safety.

Adams kicked to Arb, who made 20 yards. Hardy cleared right end for 40 yards, the longest run of the game. Hughes saved the ball on a fumble for the third time and gained a yard with it. Cartwright made 12 yards around left end. Hardy was held for no gain and Cartwright tried for another field goal but failed. Score—Rovers 7; Chester 0.

Second Half. F. Coleman went out and Godwin went to left end, Burgess going to right tackle. McAvoy relieved Robbins at quarter.

Hughes took Adams' kick and made 10 yards. Cartwright made 8 through left tackle and Arb went 2 more. Hardy made 2. Cartwright 5 and Hardy 2, all through the line. Arb and Hardy each added 2 more. Chester was holding for very small gains and Cartwright had to punt to save on downs. He made a nice kick for 40 yards and Jerry Hester got the ball. Cartwright was sent through center for 6 yards and Hardy gained 5 through left tackle. Arb carried for 2 and Hardy added 7 more. Cartwright made 10 through center and hit the same spot for 7 more. Hardy saved the ball on a fumble and Cartwright was sent over the line for a touchdown. Hardy failed to kick goal.

Hardy kicked to 30 yard line and Estep made 20 yards with it. The ball was fumbled to Cartwright who made 15 yards. The Rovers advanced with small gains to Chester's 10 yard line and then lost on downs. Then the Rovers played ball. Cunningham was carried back for a 4 yard loss and Lowry lost 10. Rover's ball. Cartwright gained 2. Arb 1 yard and Hardy went over for the touchdown. Cartwright failed to kick goal. Score—Rovers 17; Chester 0.

The lineups: Rovers—F. Coleman, Godwin, left end; McDevitt, left guard; Hughes, left tackle; Amos, center; J. Hester, right guard; Godwin, Burgess, right tackle; Harvey, right end; Robbins, quarterback; Arb, left half; Hardy, right half; Cartwright, fullback.

Chester—F. Riley, left end; Kirk, left guard; B. Riley, left tackle; Martin, center; Herbert, right guard; Anderson, right tackle; Brown, right end; Lowry, quarterback; Cunningham, left half; Estep, right half; Adams, fullback.

Touchdowns—Cartwright, Hardy. Field goal—Cartwright. Umpire and referee—Knox and Dunn.

### SOUTH SIDE WON FROM LOCAL FIVE

Local Players Were Outweighed And Southsiders Played a Rough Game.

The East Liverpool basket ball team opened the season for the Southside five, of Pittsburgh, Saturday evening, and though it was defeated by a score of 28 to 22, the victors realized they were up against the fastest team they had ever met. Outweighed more than 20 pounds to the man, the locals could not combat the rough tactics of their opponents. East Liverpool excelled in passing the ball and tackling. The rough play of the Southside five resulted in several of the local players receiving severe bruises.

The first half, played under A. A. U. rules, resulted in a victory for East Liverpool, 11 to 8, but the second half under national rules, saw the advantage overcome and Southside forge to the front. The lineups were as follows:

Southside—Liebau and Leithead, forwards; Nickel and Weitzel, center; Windelkrecht and Seibel, guards.

East Liverpool—Bloor and Rigby, forwards; Rigby and Powell, center; Chadwick and Watkins, guards.

Field goals, Liebau, 7; Leithead, Weitzel, Windelkrecht, Allison 2, Powell 2, Watkin 2. Foul goals—Liebau, 8, Allison 10. Officials—Zange and Agnew.

A large number of admirers of the game accompanied the team from East Liverpool and rooted vociferously.

### FOUR GAIN FREEDOM

Ohio Penitentiary Prisoners Escaped by Means of Manufactured Rope.

### BLOODHOUNDS ON THEIR TRAIL

Fugitives Drop Directly in Front of Warden's Office in Glare of Light—Believed to Have Boarded Outgoing Freight Train.

Columbus, O., Nov. 16.—Four prisoners escaped from the Ohio penitentiary by climbing to the roof of a cell block through a ventilator and sliding down a rope made of strips of leather belting to the lawn in front of the prison.

The fugitives are: A. L. Woods, aged 30, received from Meigs county for burglary and larceny; J. F. Ryan, alias John Gallagher, aged 28, received from Geauga county for burglary and larceny; Frank Hayden, aged 28, received from Lorain county for burglary and attempting to blow a safe. He was serving 50 years.

The escape of the prisoners was a daring one. The cell block from which they made their exit is in front of the big prison and the men dropped to the ground beneath a window in the warden's office, where the lights were burning brightly. A trusted prisoner seated at a desk near the window saw the last man, who fell before he reached the end of the rope, limp away in the darkness. The alarm was given and a posse of prison guards armed with Winchester rifles immediately started in pursuit. It is thought the men ran to the railroad yards nearby and boarded an outgoing train.

Bloodhounds were brought here from Dayton, O., to run down the escaped prisoners. The hounds quickly caught the trail, but no word has yet been received from the pursuing party.

### DEATH LIST REACHES THIRTY.

With One Exception Victims of Wreck Are All Negroes.

New Orleans, Nov. 16.—Sixteen negroes injured in the Illinois Central wreck at Kenwood were brought to the Charity hospital and three of them died soon after reaching here. This makes a total of 28 negro men dead, one negro woman killed and Andrew C. Riser, foreman of carpenters, the only white, fatally injured, a total of 30 deaths.

The injured list foots up 18. Larry Hawthorne, the only negro who escaped from the coach, has become demoralized as the result of the shock. The wreck has been cleared away. The responsibility for the accident will be hard to figure out. The first train was 45 minutes late and the last five minutes behind and the two trains were virtually running on each other's time. The engineer of the last train claimed that he had orders for a clear track to Chatawa, while the operator at Tangipapoa claims he signaled the train to stop, intending to hold it 10 minutes, but it went on and struck the train ahead.

The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this remedy had to relieve him. Such cases often result fatally. For sale by Alvin H. ### Cars Running in Chicago.

Chicago, Nov. 16.—A victory, temporary at least, was scored Sunday by the management of the Chicago City Railway against its striking employees. The company succeeded in maintaining a regular service on its Westworth avenue line, which extends from Seventy-ninth street to the downtown district, a distance of eight miles. As far as known no further attempt was made by either the officials of the company, the striking employees or the state board of arbitration to bring about a conciliatory settlement of the trouble, and the indications are for long protracted struggle.

### Viewed Historic Ground.

Boston, Nov. 16.—After a week crowded with busy sessions the delegates to the convention of the American Federation of Labor Sunday gave up their time to enjoyment. In the afternoon a trip was taken in trolley cars over the route traveled by Paul Revere on the night in April, 1775 when he warned the patriots that the British soldiers were advancing. At Concord and Lexington the cars stopped long enough to give the excursionists an opportunity to visit the famous revolutionary battlefields in these towns.

### Big Contract Landed.

Constantinople, Nov. 16.—The Pennsylvania Steel company has been awarded the contract for 20,000 tons of steel rails for the Mecca railway, in competition with the Krupp and several other German and Belgian establishments. The price is \$22.88 per ton delivered at Beirut.

### A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boerne, Texas. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by Alvin H. Bulger (only).

## REALM OF SPORTS

ROVERS TOO FAST  
FOR CHESTER TEAM

Superior Playing and Strategy Won  
Them the \$100  
Purse.

## CARTWRIGHT'S FIELD GOAL

Was the First Made This Season On  
the West End Gridiron—Chester  
Played Fairly Well But Showed a  
Lack of Practice.

If the Rovers could win a \$100 purse as handily every day as they did Saturday from the Chester eleven at Rock Springs part, they might well wish that the football season endured all the year round instead of for a few weeks. The Chester boys played hard but went down to defeat by a score of 17 to 0. The first 7 points came from a field goal and a safety. The only two plays of the kind at the park this year.

That the Rovers had prepared for a hard struggle was apparent before the first half was fairly begun. After holding Chester for downs, and about to lose the ball in the same way, Cartwright stepped back for a try for a field goal. Quarterback Robbins placed the ball perfectly and Cartwright sent it spinning between the posts for the first field goal of the season. It was a good foot ball.

For a new team Chester played well, not one of the players lacking in courage. A little more practice, one or two spots strengthened and they can come very near holding their own with the Rovers. While the Rovers gained often through their line there was some pretty tackling and in several cases the man with the ball was thrown for a loss.

Right End Harvey played in hard luck. He has made nice gains with end runs this year, but Saturday both times he was given the ball he was nailed behind the line for no gain. Quarterback Robbins carried for several nice advances, but when Lowry tried it he was nailed in his tracks and thrown for a big loss.

Cartwright was a demon at fullback and gained in nearly every scrimmage. Arb was back of the line and played well, considering the length of time he has been out. Hardy had the bulk of the work and he played better than in any game this season. On the line Hughes was the star. In making interference and tackling his work was particularly good. Amos and Robbins were also in fine fettle.

First Half.  
Cartwright kicked off to the 25 yard line. Chester failed to gain and the Rovers took the ball on downs. There was a fumble on the Rover's first try but Hughes got the ball and gained 3 yards. Cartwright lost 4 trying to clear left end. The ball was on Chester's 15 yard line when Robbins placed it for a kick and Cartwright made a field goal.

Hardy kicked off 30 yards. Adams was held on a line buck and Cunningham made 2 yards through center. Hester got the ball on a fumble. The Rovers then fumbled but Hughes picked up the pigskin and dashed around left end for a 25 yard gain. Chester's official claimed Robbins had tripped Estep and the Rovers were penalized 20 yards from the starting point of the scrimmage. Cartwright recovered the penalty with a 20 yard gain around right end and Robbins cleared left end for 18. Hardy went 1 yard through right tackle and Arb went through the line for 8. Harvey was held on an attempted end run and Robbins failed on a quarterback run. Cartwright tried another field goal but missed. The ball was downed over Chester's goal line, however, for a safety.

Adams kicked to Arb, who made 20

yards. Hardy cleared right end for 40 yards, the longest run of the game. Hughes saved the ball on a fumble for the third time and gained a yard with it. Cartwright made 12 yards around left end. Hardy was held for no gain and Cartwright tried for another field goal but failed. Score—Rovers 7; Chester 0.

Second Half.  
F. Coleman went out and Godwin went to left end, Burgess going to right tackle. McAvoy relieved Robbins at quarter.

Hughes took Adams' kick and made 10 yards. Cartwright made 8 through left tackle and Arb went 2 more. Hardy made 2. Cartwright 5 and Hardy 2, all through the line. Arb and Hardy each added 2 more. Chester was holding for very small gains and Cartwright had to punt to save on downs. He made a nice kick for 40 yards and Jerry Hester got the ball. Cartwright was sent through center for 6 yards and Hardy gained 5 through left tackle. Arb carried for 2 and Hardy added 7 more. Cartwright made 10 through center and hit the same spot for 7 more. Hardy saved the ball on a fumble and Cartwright was sent over the line for a touchdown. Hardy failed to kick goal.

Hardy kicked to 30 yard line and Estep made 20 yards with it. The ball was fumbled to Cartwright who made 15 yards. The Rovers advanced with small gains to Chester's 10 yard line and then lost on downs. Then the Rovers played ball. Cunningham was carried back for a 4 yard loss and Lowry lost 10. Rover's ball. Cartwright gained 2. Arb 1 yard and Hardy went over for the touchdown. Cartwright failed to kick goal. Score—Rovers 17; Chester 0.

The lineups:  
Rovers—F. Coleman, Godwin, left end; McDevitt, left guard; Hughes, left tackle; Amos, center; J. Hester, right guard; Godwin, Burgess, right tackle; Harvey, right end; Robbins, quarterback; Arb, left half; Hardy, right half; Cartwright, fullback.

Chester—F. Riley, left end; Kirk, left guard; B. Riley, left tackle; Martin, center; Herbert, right guard; Anderson, right tackle; Brown, right end; Lowry, quarterback; Cunningham, left half; Estep, right half; Adams, fullback.

Touchdowns—Cartwright, Hardy.  
Field goal—Cartwright.  
Umpire and referee—Knox and Dunn.

SOUTH SIDE WON  
FROM LOCAL FIVE

Local Players Were Outweighed And  
Southsiders Played a Rough  
Game.

The East Liverpool basket ball team opened the season for the Southside five, of Pittsburgh, Saturday evening, and though it was defeated by a score of 28 to 22, the victors realized they were up against the fastest team they had ever met. Outweighed more than 20 pounds to the man, the locals could not combat the rough tactics of their opponents. East Liverpool excelled in passing the ball and tackling. The rough play of the Southside five resulted in several of the local players receiving severe bruises.

The first half, played under A. A. U. rules, resulted in a victory for East Liverpool, 11 to 8, but the second half under national rules, saw the advantage overcome and Southside forge to the front. The lineups were as follows:

Southside—Liebau and Leithead, forwards; Nickel and Weitzel, center; Windekecht and Selbel, guards.  
East Liverpool—Bloor and Rigby, forwards; Rigby and Powell, center; Chadwick and Watkins, guards.  
Field goals, Liebau, 7; Leithead, Weitzel, Windekecht, Allison 2, Powell 2, Watkin 2. Foul goals—Liebau, 8, Allison 10. Officials—Zange and Agnew.

A large number of admirers of the game accompanied the team from East Liverpool and rooted vociferously.

## FOUR GAIN FREEDOM

Ohio Penitentiary Prisoners Escape by Means of Manufactured Rope.

## BLOODHOUNDS ON THEIR TRAIL

Fugitives Drop Directly in Front of Warden's Office in Glare of Light—Believed to Have Boarded Outgoing Freight Train.

Columbus, O., Nov. 16.—Four prisoners escaped from the Ohio penitentiary by climbing to the roof of a cell block through a ventilator and sliding down a rope made of strips of leather belting to the lawn in front of the prison.

The fugitives are: A. L. Woods, aged 30, received from Meigs county for burglary and larceny; J. F. Ryan, alias John Gallagher, aged 28, received from Geauga county for burglary and larceny; Frank Hayden, aged 28, received from Cuyahoga county for burglary, and Thomas Gallagher, aged 32, received from Lorain county for burglary and attempting to blow a safe. He was serving 50 years.

The escape of the prisoners was a daring one. The cell block from which they made their exit is in front of the big prison and the men dropped to the ground beneath a window in the warden's office, where the lights were burning brightly. A trusted prisoner seated at a desk near the window saw the last man, who fell before he reached the end of the rope, limp away in the darkness. The alarm was given and a posse of prison guards armed with winchesters immediately started in pursuit. It is thought the men ran to the railroad yards nearby and boarded an outgoing train.

Bloodhounds were brought here from Dayton, O., to run down the escaped prisoners. The hounds quickly caught the trail, but no word has yet been received from the pursuing party.

## DEATH LIST REACHES THIRTY.

With One Exception Victims of Wreck Are All Negroes.

New Orleans, Nov. 16.—Sixteen negroes injured in the Illinois Central wreck at Kenwood were brought to the Charity hospital and three of them died soon after reaching here. This makes a total of 28 negro men dead, one negro woman killed and Andrew C. Riser, foreman of carpenters, the only white, fatally injured, a total of 30 deaths.

The injured list foots up 18. Larry Hawthorne, the only negro who escaped from the coach, has become demoralized as the result of the shock. The wreck has been cleared away.

The responsibility for the accident will be hard to figure out. The first train was 45 minutes late and the last five minutes behind and the two trains were virtually running on each other's time. The engineer of the last train claimed that he had orders for a clear track to Chatwa, while the operator at Tangipapoa claims he signaled the train to stop, intending to hold it 10 minutes, but it went on and struck the train ahead.

## Go Prepared.

In preparing for your summer outing a little forethought may save you an end of trouble. Mr. John H. Maule, a dry goods merchant of Belleville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with camp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Alvin H. Bulger.

When you ask for Mrs. Austin's Pan-ake flour, insist upon having it and not some substitute. Say Mrs. Austin's and no other.

## Cars Running in Chicago.

Chicago, Nov. 16.—A victory, temporary at least, was scored Sunday by the management of the Chicago City railway against its striking employees. The company succeeded in maintaining a regular service on its Wentworth avenue line, which extends from Seventy-ninth street to the downtown district, a distance of eight miles. As far as known no further attempt was made by either the officials of the company, the striking employees or the state board of arbitration to bring about a conciliatory settlement of the trouble, and the indications are for long protracted struggle.

## Viewed Historic Ground.

Boston, Nov. 16.—After a week crowded with busy sessions the delegates to the convention of the American Federation of Labor Sunday gave up their time to enjoyment. In the afternoon a trip was taken in trolley cars over the route traveled by Paul Revere on the night in April, 1775, when he warned the patriots that the British soldiers were advancing. At Concord and Lexington the cars stopped long enough to give the excursionists an opportunity to visit the famous revolutionary battlefields in these towns.

## ROVERS TOO FAST FOR CHESTER TEAM

Superior Playing and Strategy Won Them the \$100 Purse.

### CARTWRIGHT'S FIELD GOAL

Was the First Made This Season on the West End Gridiron—Chester Played Fairly Well But Showed a Lack of Practice.

If the Rovers could win a \$100 purse as handily every day as they did Saturday from the Chester eleven at Rock Springs park, they might well wish that the football season endured all the year round instead of for a few weeks. The Chester boys played hard but went down to defeat by a score of 17 to 0. The first 7 points came from a field goal and a safety. The only two plays of the kind at the park this year.

That the Rovers had prepared for a hard struggle was apparent before the first half was fairly begun. After holding Chester for downs, and about to lose the ball in the same way, Cartwright stepped back for a try for a field goal. Quarterback Robbins placed the ball perfectly and Cartwright sent it spinning between the posts for the first field goal of the season. It was a good foot ball.

For a new team Chester played well, not one of the players lacking in courage. A little more practice, one or two spots strengthened and they can come very near holding their own with the Rovers. While the Rovers gained often through their line there was some pretty tackling and in several cases the man with the ball was thrown for a loss.

Right End Harvey played in hard luck. He has made nice gains with end runs this year, but Saturday both times he was given the ball he was nailed behind the line for no gain. Quarterback Robbins carried for several nice advances, but when Lowry tried it he was nailed in his tracks and thrown for a big loss.

Cartwright was a demon at fullback and gained in nearly every scrimmage. Arb was back of the line and played well, considering the length of time he has been out. Hardy had the bulk of the work and he played better than in any game this season. On the line Hughes was the star. In making interference and tackling his work was particularly good. Amos and Robbins were also in fine fettle.

First Half. Cartwright kicked off to the 25 yard line. Chester failed to gain and the Rovers took the ball on downs. There was a fumble on the Rovers' first try but Hughes got the ball and gained 3 yards. Cartwright lost 4 trying to clear left end. The ball was on Chester's 15 yard line when Robbins placed it for a kick and Cartwright made a field goal.

Hardy kicked off 30 yards. Adams was held on a line buck and Cunningham made 2 yards through center. Hester got the ball on a fumble. The Rovers then fumbled but Hughes picked up the pigskin and dashed around left end for a 25 yard gain. Chester's official claimed Robbins had tripped Estep and the Rovers were penalized 20 yards from the starting point of the scrimmage. Cartwright recovered the penalty with a 20 yard gain around right end and Robbins cleared left end for 18. Hardy went 1 yard through right tackle and Arb went through the line for 8. Harvey was held on an attempted end run and Robbins failed on a quarterback run. Cartwright tried another field goal but missed. The ball was downed over Chester's goal line, however, for a safety.

Adams kicked to Arb, who made 20

yards. Hardy cleared right end for 40 yards, the longest run of the game. Hughes saved the ball on a fumble for the third time and gained a yard with it. Cartwright made 12 yards around left end. Hardy was held for no gain and Cartwright tried for another field goal but failed. Score—Rovers 7; Chester 0.

Second Half. F. Coleman went out and Godwin went to left end, Burgess going to right tackle. McAvoy relieved Robbins at quarter.

Hughes took Adams' kick and made 10 yards. Cartwright made 8 through left tackle and Arb went 2 more. Hardy made 2. Cartwright 5 and Hardy 2, all through the line. Arb and Hardy each added 2 more. Chester was holding for very small gains and Cartwright had to punt to save on downs. He made a nice kick for 40 yards and Jerry Hester got the ball. Cartwright was sent through center for 6 yards and Hardy gained 5 through left tackle. Arb carried for 2 and Hardy added 7 more. Cartwright made 10 through center and hit the same spot for 7 more. Hardy saved the ball on a fumble and Cartwright was sent over the line for a touchdown. Hardy failed to kick goal.

Hardy kicked to 30 yard line and Estep made 20 yards with it. The ball was fumbled to Cartwright who made 15 yards. The Rovers advanced with small gains to Chester's 10 yard line and then lost on downs. Then the Rovers played ball. Cunningham was carried back for a 4 yard loss and Lowry lost 10. Rovers' ball. Cartwright gained 2. Arb 1 yard and Hardy went over for the touchdown. Cartwright failed to kick goal. Score—Rovers 17; Chester 0.

The lineups: Rovers—F. Coleman, Godwin, left end; McDevitt, left guard; Hughes, left tackle; Amos, center; J. Hester, right guard; Godwin, Burgess, right tackle; Harvey, right end; Robbins, quarterback; Arb, left half; Hardy, right half; Cartwright, fullback. Chester—F. Riley, left end; Kirk, left guard; B. Riley, left tackle; Martin, center; Herbert, right guard; Anderson, right tackle; Brown, right end; Lowry, quarterback; Cunningham, left half; Estep, right half; Adams, fullback.

Touchdowns—Cartwright, Hardy. Field goal—Cartwright. Umpire and referee—Knox and Dunn.

## SOUTH SIDE WON FROM LOCAL FIVE

Local Players Were Outweighed And Southsiders Played a Rough Game.

The East Liverpool basket ball team opened the season for the Southside five, of Pittsburg, Saturday evening, and though it was defeated by a score of 28 to 22, the victors realized they were up against the fastest team they had ever met. Outweighed more than 20 pounds to the man, the locals could not combat the rough tactics of their opponents. East Liverpool excelled in passing the ball and tackling. The rough play of the Southside five resulted in several of the local players receiving severe bruises.

The first half, played under A. A. U. rules, resulted in a victory for East Liverpool, 11 to 8, but the second half under national rules, saw the advantage overcome and Southside forge to the front. The lineups were as follows:

Southside—Liebau and Leithead, forwards; Nickel and Weitzel, center; Windkewecht and Seibel, guards. East Liverpool—Bloor and Rigby, forwards; Rigby and Powell, center; Chadwick and Watkin, guards. Field goals, Liebau, 7; Leithead, Weitzel, Windkewecht, Allison 2, Powell 2, Watkin 2. Foul goals—Liebau, 8, Allison 10. Officials—Zange and Agnew.

A large number of admirers of the game accompanied the team from East Liverpool and rooted vociferously.

Headless Body Found in Chair. Canal Dover, O., Nov. 16.—The dead body of Matthew Cooney, a miner, was found in a chair at the home of Evan Lewis at Weiswright, this county. The head had been blown off by a shotgun. Evan Lewis, charged with the crime, was captured while hiding in a mine. It is said the men quarreled during a christening.

## FOUR GAIN FREEDOM

Ohio Penitentiary Prisoners Escaped by Means of Manufactured Rope.

### BLOODHOUNDS ON THEIR TRAIL

Fugitives Drop Directly in Front of Warden's Office in Glare of Light—Believed to Have Boarded Outgoing Freight Train.

Columbus, O., Nov. 16.—Four prisoners escaped from the Ohio penitentiary by climbing to the roof of a cell block through a ventilator and sliding down a rope made of strips of leather belting to the lawn in front of the prison.

The fugitives are: A. L. Woods, age 30, received from Meigs county for burglary and larceny; J. F. Ryan, alias John Gallagher, age 28, received from Geauga county for burglary and larceny; Frank Hayden, age 28, received from Cuyahoga county for burglary, and Thomas Gallagher, age 32, received from Lorain county for burglary and attempting to blow a safe. He was serving 50 years.

The escape of the prisoners was a daring one. The cell block from which they made their exit is in front of the big prison and the men dropped to the ground beneath a window in the warden's office, where the lights were burning brightly. A trusted prisoner seated at a desk near the window saw the last man, who fell before he reached the end of the rope, limp away in the darkness. The alarm was given and a posse of prison guards armed with winchesters immediately started in pursuit. It is thought the men ran to the railroad yards nearby and boarded an outgoing train.

Bloodhounds were brought here from Dayton, O., to run down the escaped prisoners. The hounds quickly caught the trail, but no word has yet been received from the pursuing party.

### DEATH LIST REACHES THIRTY.

With One Exception Victims of Wreck Are All Negroes.

New Orleans, Nov. 16.—Sixteen negroes injured in the Illinois Central wreck at Kenwood were brought to the Charity hospital and three of them died soon after reaching here. This makes a total of 28 negro men dead, one negro woman killed and Andrew C. Risser, foreman of carpenters, the only white, fatally injured, a total of 30 deaths.

The injured list foots up 18. Larry Hawthorne, the only negro who escaped from the coach, has become demented as the result of the shock. The wreck has been cleared away.

The responsibility for the accident will be hard to figure out. The first train was 45 minutes late and the last five minutes behind and the two trains were virtually running on each other's time. The engineer of the last train claimed that he had orders for a clear track to Chatava, while the operator at Tangipapoa claims he signaled the train to stop, intending to hold it 10 minutes, but it went on and struck the train ahead.

### Go Prepared.

In preparing for your summer outing a little forethought may save you no end of trouble. Mr. John H. Manly, a dry goods merchant of Belleville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatality. For sale by Alvin H. Bulger.

Cars Running in Chicago. Chicago, Nov. 16.—A victory, temporary at least, was scored Sunday by the management of the Chicago City railway against its striking employees. The company succeeded in maintaining a regular service on its Wentworth avenue line, which extends from Seventy-ninth street to the downtown district, a distance of eight miles. As far as known no further attempt was made by either the officials of the company, the striking employees or the state board of arbitration to bring about a conciliatory settlement of the trouble, and the indications are for long protracted struggle.

Viewed Historic Ground. Boston, Nov. 16.—After a week crowded with busy sessions the delegates to the convention of the American Federation of Labor Sunday gave up their time to enjoyment. In the afternoon a trip was taken in trolley cars over the route traveled by Paul Revere on the night in April, 1775 when he warned the patriots that the British soldiers were advancing. At Concord and Lexington the cars stopped long enough to give the excursionists an opportunity to visit the famous revolutionary battlefields in these towns.

Miller-Johns Trial Resumed. Washington, Nov. 16.—The new trial of the cases of Daniel V. Miller, the dismissed law clerk of the postoffice department, and of Joseph M. Johns, of Indiana, under indictments involving charges of conspiracy and bribery, has been arranged to begin in Cincinnati today and Assistant Attorney General Robb, of the postoffice department, left to assist in the prosecution of the cases, the district attorney at Cincinnati directly representing the government.

Humberts Don Prison Garb. Paris, Nov. 16.—The removal of Mme. Therese Humbert to Rennes and of Frederic Humbert to Thouars was not attended by any incident of note. The transfer of the prisoners' ends the reign of slight favors which have been granted to them at the Fresnes prison and henceforth they will both wear the convict dress.

### Big Contract Landed.

Constantinople, Nov. 16.—The Pennsylvania Steel company has been awarded the contract for 20,000 tons of steel rails for the Mecca railway, in competition with the Krupps and several other German and Belgian establishments. The price is \$22.88 per ton delivered at Beirut.

## Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

## ISTHMIANS LAUGHING

The Idea of Colombian Troops  
Marching on New Republic  
Causes Merriment.

## THEIR SECURITY IS ABSOLUTE

United States Alone Would Prevent  
Any Such Action—Colombia Has  
Trouble Enough at Home to Occupy  
Her—Infant Nation Is Busy.

Panama, Nov. 16.—President Marroquin's statement, as conveyed in a cablegram to General Plaza, president of Ecuador, that Generals Reyes, Caballeros, Ospina and Holguin are now marching on the isthmus to "suppress the isthmian traitors," has set the entire population of the isthmus laughing. Protected by the impenetrability of the land and the many leagues of coast line separating the isthmus from Colombia and confident that the United States intends to prevent the landing of Colombian soldiers from the sea, the isthmians feel that their security is absolute.

The loss of the isthmian territory is, of course, a tragedy for Colombia. The government at Bogota is probably ignorant of the attitude taken by the government of the United States during the last two weeks. In a frenzy "to save its face," to appease an angry and disappointed populace and to satisfy the public demand for some appearance of activity and an attempt to save the honor and the territorial integrity of Colombia, the government is no doubt promising and threatening to send forces to the coast and to take other aggressive steps.

Outbreak Threatened at Bogota.  
Well informed people on the isthmus believe that the Colombian government is going through all these forms of organizing expeditions not merely for the foregoing reasons, but owing to the necessity of forestalling or weakening the threatened revolutionary outbreak in Bogota.

The growing feeling against President Marroquin is believed to be due to the fact that he did not show sufficient determination to effect ratification of the canal treaty, which would have saved the isthmus to Colombia, and because he appointed General Obaldia governor of the department of Panama after Obaldia had declared that he would remain a Colombian if the treaty were ratified, but that otherwise he would only be a Panamanian. General Obaldia was born in Chiriqui, in the state of Panama.

Miners and others familiar with the coast on both sides of the isthmus declare that any attempt to march an expeditionary army from any part of Colombia to the isthmus would be futile. Both coasts consist of impassible jungles and swamps and rivers, without towns or roads or any means for the provisioning of an army. The members of the junta have not the slightest fear that any such expedition will be attempted and they receive the reports of such expeditions with equanimity.

Troops Cannot Be Landled.  
What is described here in Panama as "the United States' broad interpretation of the clause of the treaty of 1846 regarding the protection of traffic across the isthmus," is deemed ample for the prevention of the transportation of troops by sea and of consequent hostilities. The Pacific Steam Navigation company, a British concern, plying between Panama and Buena Ventura, has a clause in its contract with the Colombian government which says that it must "under normal conditions" transport government troops. It can, however, be said authoritatively that the company will not transport Colombian troops to the isthmus under present conditions and that it has not been asked by the Colombian government to do so.

The revenues of the new republic, if economically administered, promise to meet all expenses. These revenues consist of a 10 per cent ad valorem duty on imports, slaughter house taxes, liquor licenses and similar sources of income, as well as the fair yearly sums derived from those holding a monopoly of the tobacco business; from the

gambling privileges at Panama and Colon and from the lottery. These sources of revenue do not include \$5,000 in gold per week formerly paid by the Panama Railroad company, a United States concern, to the Bogota government, which retained \$4,500, giving to the state of Panama only \$500.

Keeping the Army Contented.  
The government of the new republic, realizing the necessity of keeping its army in a contented condition, is paying its officers and soldiers with the utmost promptness.

General Obaldia appeared on the streets of Panama for the first time since Nov. 3, when the independence of the isthmus was proclaimed. He was greeted cordially by friends and acquaintances.

It is generally asserted that the isthmians will eventually insist upon the separation of church and state, as separation was one of the measures demanded by the liberal party in the last revolution, and the population of the isthmus is largely liberal.

The question of the admission of Chinese is being seriously discussed by the press and in other quarters, the consensus of opinion appearing to be opposed to such admission.

The junta has invited designs for a Panamanian coat of arms.

## CONSUL GENERAL GUDGER

Arrives in Panama—Greeted by National Music.

Panama, Nov. 16.—United States Consul General Gudger arrived here today and was met at the railway station by a great number of persons, including the members of the provisional government, army officers and other prominent persons. General Obaldia was also among those present. As the consul general alighted from the train a military band played "The Star Spangled Banner."

Mr. Gudger was welcomed by a committee composed of Senors Arias and Escriella, representing the junta, and by Senor Brid, representing the municipality of Panama.

south, which was without incident. Ernest Lefevre has been appointed director of telegraphs.

Colon, Nov. 16.—The overdue German steamer Scotia arrived from the coast Sunday flying the Colombian flag. Her agents signaled the Scotia to come alongside her wharf, but she is now anchored a mile and a half from the harbor. Cutters from the United States auxiliary cruiser Dixie are playing to and from the Scotia, which has no communication with the shore. There is great excitement, as it is stated that General Reyes and his staff are aboard the vessel. The United States converted cruiser Mayflower left her anchorage and steamed to meet the Scotia. The moment the Scotia anchored 20 marines from the Dixie were landed here.

## Reclus's Dead Body Found.

New York, Nov. 16.—In the bathroom of his home in Ninth avenue was found the body of Chevalier Luigi Petich, former ambassador of Italy to Mexico. He had been dead three days and apoplexy is said to have been the cause of death. Chevalier Petich, who was 65 years of age, was a man of many attainments, a scientist, inventor and scholar, but withal a recluse. He was the man who found and owned the famous "Smiling Toitoe Heads." These were among the first early American archaeological finds which went to prove the relationship of the earlier races of this continent with Asiatics. The heads were found in Mexico in a sepulchral mound, in which skeletons and broken relics were also discovered.

## SESSIONS TO BE BRIEF

Senate Will Confine Itself to  
Cuban Treaty Legislation  
During Extra Session.

## MORGAN WILL TALK A LITTLE

House Will Dispose of Reciprocity  
Bill on Thursday—Nominations of  
General Wood and Others to Be  
Considered by Senate.

Washington, Nov. 16.—It is the intention of the senate leaders to confine as closely as possible the legislation of the present extra session to the bill to carry into effect the Cuban treaty, and with that end in view the daily sessions of the senate during the present week will be brief and another adjournment will be taken on Thursday or Friday until the following Monday.

The work of introducing bills and of presenting petitions will go forward, but with the exception of the Cuban bill neither bills nor petitions will be taken up in committee nor discussed in the senate during the week. It is quite well understood that Senator Morgan is prepared for a prolonged discussion of the situation on the isthmus of Panama, but while he seems not to have taken anyone into his confidence the general supposition is that he will defer his speeches until the new canal treaty shall be sent to the senate.

## More Work for Regular Session.

There is an understanding on the part of senators that even though the negotiations for the convention be forthwith completed, it will not be transmitted to the senate until the beginning of the regular session of congress in December. It is expected that the Cuban bill will be received from the house on Friday, and it is probable that a session will be held on that day in order that the bill may be referred to the committee on foreign relations, which will begin its consideration at once.

The committee on military affairs will meet during the week to consider the nomination of General Wood, and as soon as practicable after the committee reports on it the question of confirmation will be brought before the senate in executive session in consideration of other nominations.

Senator Hale, who is chairman of the Republican committee on reorganization of the senate committee, expresses the opinion that the reorganization will be completed by the close of the week. Other senators say it will be impossible to complete the work until the following week.

## Work Mapped Out for House.

The bill making effective the Cuban reciprocity convention reported by the ways and means committee will be taken up in the house today and disposed of Thursday. It probably will be sent to the senate Friday.

Mr. Payne, of New York, chairman of the ways and means committee, in accordance with the notice he gave when he reported the bill on Friday, will ask the house as soon as it convenes to begin its consideration. A rule will be reported by the committee on rules providing for a vote at 4 p. m. Thursday without intervening motion. On the adoption of the rule the house will go into committee of the whole and discussion of the Cuban bill will begin.

The program of the minority is well defined by the resolution adopted at the Democratic caucus. A rule cutting off amendments will be proposed in order that an amendment may be offered striking out the differential on refined sugar and eliminating the five-year clause. The resolution made it the sense of the caucus that the Democratic members should vote for the bill either "upon the adoption or rejection of the amendment."

## SUNDAY PROPOSALS

Philadelphia, Nov. 16.—"If you promise on Sunday to marry a girl you can back out of it legally, if not gracefully," said a judge today.

## Rheumatism

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purified and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

If you have Rheumatism, write us, and our physicians will furnish you out charge and information desired, and we will mail free our book "Rheumatism."

This ruling of Judge Beidler is what won for Andrew Jackson Tull the suit for breach of promise, brought against him by Miss Amelia Povelissak. It was Judge Beidler's interpretation of the blue laws that saved Tull.

Tull's attorney urged that, even had the proposal been bona fide it was worthless, because of having been altered on Sunday and subsequently not acknowledged by Tull. Judge Beidler's instructions to the jury were:

## WOULDN'T TAKE A DARE.

Wealthy Business Man Killed by Companion During Altercation.

St. Joseph, Mo., Nov. 16.—Irving McDonald, a young and wealthy business man, was shot and killed by J. F. Furlong, a traveling man, whose home is given by him as St. Louis. Furlong says his act was in self-defense, as he was assaulted by four men and shot only when he believed his life to be in danger.

In company with Mrs. Lester Myrick and Grace Holt, of a theatrical company, and several other friends, Furlong and McDonald went to an Edmond street cafe after the performance. They are said to have been drinking freely. After the party left the cafe, according to the police, words passed between the two men and Furlong hesitated a moment. McDonald dared him to fire and Furlong pulled the trigger. The women are held as witnesses. They are said to reside in New York.

South Bend Ind., Nov. 16.—Joseph Francis Furlong, held at St. Joseph, Mo., on a charge of murdering Irving McDonald, son of a St. Louis millionaire, is a traveling representative of the O'Brien Varnish company, of this city, and is well known here.

## Well-Known Doctor Dead.

Atlanta, Ga., Nov. 16.—Dr. J. McFadden Gaston is dead of acute indigestion, aged 79 years. He was prominent during the Civil war as a medical officer in the Confederate service. He made his home in Atlanta in 1882 and has been at the head of the department of surgery in the Southern Medical college. He was an authority widely quoted in his country and Europe on intestinal diseases.

## A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured my entire of the cough, strengthened my lungs and restored me to my normal weight, health and strength." For sale by Alvin H. Bulger (only).

## Sarafoff Considered a Hero.

Sofia, Nov. 16.—Boris Sarafoff, leader of the Macedonian revolutionists, arrived here and was received by thousands of persons who brought laurel wreaths and flowers and acclaimed Sarafoff as a national hero. The Macedonian leader presented a picturesque appearance. His beard was unkempt, his hair hung in locks and his features were weather-beaten. After the delivering of patriotic speeches a procession was formed and Sarafoff was borne on the shoulders of his admirers to the house of his parents.

Kent, O., Nov. 16.—Raining at the rate of 30 miles an hour in the Kent yards, Wheeling and Lake Erie passenger train No. 27, carrying 100 Wheeling, Zanesville and Canton passengers, struck an open switch. The engine went into the ditch. Engineer James Patterson and Fireman James Burris jumped. The former escaped with a bruised leg, while the fireman was caught by escaping steam and badly scalded. Though the passengers were tossed about, none were injured.

## Rapid Transit in Cuba.

Havana, Nov. 16.—A new era in rapid transit was inaugurated here in the departure of the first Cuba Rail road company's daily through train from Havana to Santiago. The train is scheduled to reach Santiago in 2 hours. The route is over the Havana United, the Cardenas and Juaro and the Cuban Central railways to Santa Clara, and thence over the Cuba rail road. Heretofore the journey has taken three days, including stopovers at night.

### HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

**Goes to Canada.**—Rev. Edwin Weary left today for Canada to conduct an eight-days' mission. Rev. Hely Maloney, of Lorain, will preach for him here next Sunday and will also conduct a missionary service Friday evening.

**New Time Table.**—A new time table will go into effect on the C. & P. main line and river division on November 29. The district passenger agents held a meeting in Pittsburgh Saturday to determine the changes, which, it is thought, will not be many.

### Assisting in Revival.

Lisbon, November 16.—(Special.)—Rev. G. W. Orcutt, of the M. E. church of East Palestine, will assist Rev. J. S. Secrist, in revival meeting, which are being held in the local church this week.

### Cough Gently.

Few people know how to cough properly. In fact, it never occurs to the ordinary individual that there are a right way and a wrong way of doing it. Yet it is a matter of no small importance. If every sigh means a drop of blood out of the heart, as people say, every cough means some greater or less proportion of time knocked off one's life. Most people cough as loudly and forcibly as they can. Some chronic coughers seem a bit proud of the terrible noise they make. But it is a rather costly noise, for the simple reason that it tears and inflames the lungs.

The lungs consist of an extraordinarily delicate spongelike tissue, which sometimes gets inflamed and choked with phlegm. When we try to get rid of this substance we cough. But, obviously, if we remove it violently we must necessarily injure the delicate lung tissue. Therefore train yourself to cough as gently as possible. After a little practice you will find it quite easy to do so. In that way you will do a minimum of mischief to the lungs and add years to your life.

### Plant Misers.

All leaf buds, whether underground or on the bare branches of winter, are plant savings put aside from the superfluity of summer against the proverbial rainy day. The starch of which such organisms consist is to the plant what his savings are to the prudent man, and the common potato is one of the greatest misers of the vegetable world in this respect, for almost the whole of the tuber is made up of starch food, left as a legacy to the young plants represented by the "eyes." This is true of all plants that grow from bulbs.

Some go further, for they run a savings bank in the shape of a taproot, which, if left undisturbed, grows larger year by year, to be drawn upon in seasons of drought when other means of subsistence are exhausted. Among these are primroses, carrots, beetroots and turnips, and with these three last this faculty of saving has been developed by man to make the plants a source of profit to himself.

**Carried a Live Shark Ashore.** Jonathan Fowler, a Massachusetts fisherman, once walked out knee deep through the mud and filth of a seashore at low tide to a shark left by the retiring waters, shouldered it and brought it alive on his back to the shore. The shark weighed 500 pounds, quite a load, considering that it was not the most portable of articles and that the man had to wade through mud.

### A WOMAN HUMORIST.

**Miss Carolyn Wells, the Writer of Clever "Nonsense."** Carolyn Wells, the writer of popular books, whose quaint conceits in verse and prose have attracted the most favorable notice of both the public and reviewers, is one of the cleverest of the few women who do really humorous work.

Miss Wells is young, attractive and vivacious, interested in many things besides authorship and is somewhat fond of society. She lives with her people at Rahway, N. J., near enough to New York to enable her to keep in touch with the editors and publishers, with whom her productions are in demand.

The latest work of Miss Wells is a burlesque historical novel entitled "Abenik Caldwell." In writing this work the author has apparently had a

MISS CAROLYN WELLS.

lot of fun. The average historical novel of the last few years has been absurd in its stilted language and its mock incredible feats. Miss Wells has carried these features to extremes and has jumbled together a plot, containing an adventure in every chapter, that makes an ordinary historical romance seem tame by contrast.

Miss Wells' humor—her quaint way of looking at commonplace things—is a natural gift. Her felicity of phrase has been, of course, in a large measure acquired. The great charm of her work lies in the fact that she is full of surprises. One never knows just what is coming next. She began writing in 1895, contributing to the magazines. Among her most popular works are "At the Sign of the Sphinx," "Folly in the Forest" and an "Anthology of Nonsense Rhymes." Miss Wells works easily and gathers the ideas for her fancies and stories from the most unexpected quarters; consequently she is very prolific. She insists that she is in no sense "literary." Her favorite word in either reading or writing is "nonsense."

### The First Wedding Ring.

The wedding ring, according to Henry Swinburne of the seventeenth century, was first designed by Prometheus and fashioned out of adamant and iron by Tubal Cain. He says that it was "given by Adam to his son to this end—that therewith he should espouse a wife." Men were, as all women know, deceivers ever, and some of these unscrupulous creatures were wont to wed with rings made of rushes, imagining them to be less binding than a strong and valuable ring. The bishop of Salisbury, however, stepped in and forbade this practice in 1217.

Silver was more frequently used than gold for wedding rings, and they were made in all kinds of shapes, some twisted, like two joined hands, or a pair of hearts stuck together with an arrow. Often they were adorned with precious stones and had "posies"—that is, scraps of verse—inside, such as:

Fortune doth send you, hap it well or ill. This plain gold ring to wed you to your will.

Life is a calculation; the happy man is he whose calculation is correct.—Cleoppy.

### Would Not Be Noticed.

Applicant—Yes, madam. I wish to secure board, but I must inform you that I am a vegetarian, madam.

Mrs. Slimdiet—Oh, that will be all right. You will not be expected to eat the meat. None of the others ever do.

## HIGH SCHOOL TEAM SUFFERED DEFEAT

BEATEN BY STEUBENVILLE SCHOOL ELEVEN, 17 TO 0.

Game Well Played And the Locals Well Satisfied With Their Treatment.

The East Liverpool high school football team met its first defeat of the season Saturday at the hands of the Steubenville high school team, at the latter city, the score being 17 to 0. The Steubenville boys won the game on merit, the local players speaking in the highest terms of the treatment they received. The game was fairly conducted and there was not the slightest cause for complaint.

The local eleven was not in the best of condition, however, with two of the regulars, Viney and Thompson, out of the game with injuries. The line was weak and suffered before the superb interference of their opponents. The several big gains made by Steubenville show how completely the line was broken.

Steubenville kicked off to Gaston, who made 5 yards. Mountford bucked the line for three years and on the next scrimmage there was a fumble between center and quarter. Mountford could not quite make the gain for the third down and the ball went to Steubenville. On three end runs for big gains, Steubenville took the ball over for a touchdown and kicked goal.

Mountford kicked to Steubenville and the ball was fumbled on their 30-yard line. Smith and Mountford took the ball to Steubenville's 10-yard line. Smith went through tackle with the ball, but fumbled and Steubenville took it the entire length of the field for a touch down and kicked goal.

Steubenville kicked out of bounds and Mountford then kicked off. Steubenville's left half was sent around the left end for a touchdown. The goal kicked failed, leaving the final score 17 to 0.

Steubenville will play a return game here next Friday at the West End park and the local team is confident of turning the tables.

## INSTRUCTIONS GIVEN TO BUSINESS AGENT

Business Association Held a Short But Important Meeting Today.

The business association held a short session at the Lewis Bros.' establishment this morning, the principal object being to give instruction to the new agent, L. C. Cooper, who will represent the association in all its undertakings.

The collector was given his instructions to the minutest detail and the carrying out of the work laid down will now remain entirely with him. He entered immediately upon his duties with the following office hours to govern: 11 to 12 a. m.; 1 to 2 and 5 to 6 p. m.

### Lost Several Days.

Lisbon, November 16.—(Special.)—Edward Aldrich, the Salem man who had been in jail a few days on an insanity charge, was taken into probate court Saturday afternoon and it being clear he had recovered from his attack, which was due to excessive drinking, he was released. He said he remembered nothing of his experience for several days.

### New Church to Be Dedicated.

Lisbon, November 16.—(Special.)—John A. Rodgers, an elder in the local Presbyterian church, went to Youngstown this morning to take part in the dedication of the new church built for Rev. D. S. Evans, the well known Presbyterian minister in that city.

In order to most thoroughly advertise Brazilian Balm, the manufacturer has placed with the different druggists in East Liverpool, Chester, W. Va., and Wellsville 1,000 trial bottles to be given away Saturday, November 21, to all adults that will call.

Brazilian Balm is the only remedy that has been found able to cope with catarrh. Its cures are permanent and are numbered by the tens of thousands. It will cure a cold in one night. Guaranteed to cure any cough. Will cure the worst case of croup in a few minutes. Cures sore throat and ulcerated tonsils and the only thing on earth that cures asthma. Brazilian Balm is not a new preparation, but has been on the market for 15 years, and is recommended by all druggists and physicians. 269-h

## LODGE STARTS WELL

New Tribe of Ben Hur Started in Chester With 42 Charter Members.

Thirty members of the Ben Hur tribe, Star of the Valley, No. 13, of Wellsville, visited Chester Saturday night accompanied by their team and instituted the new tribe of Ben Hur Rock Springs circle No. 14, of Chester. There were 23 charter members inducted into the mysteries of the order, and have 42 applications yet pending, which will afford a large amount of work each meeting night yet to come for the winter.

Many other visitors were present from the Ben Hur tribes of the East End, East Liverpool, Irondale and other points. The lodge starts off on a most satisfactory basis.

The instituting was done by Deputy Supreme Chief C. S. Greer and J. W. Hamilton, both of Wheeling. The meeting was held in the Mercer hall.

The new lodge will be known as Rock Springs court No. 14 and the prospects for a successful organization are of the best. The following officers were elected: Chief, W. C. Johnston; past chief, Mrs. Florence Kilgore; judge, E. S. Good; scribe, Bertha Johnston; keeper of funds, J. E. Webster; captain, J. D. Finley; guide, Fred Smedberg.

A delegation from the new court will attend a meeting of Pan-American court this evening, and on Saturday night the team from the latter lodge will come to Chester for the purpose of initiating the new members.

### Authorized to Invest.

Lisbon, November 16.—(Special.)—Lillie M. Thompson, as guardian of George M. Thompson, of East Liverpool, has been authorized to invest \$2,000 of her ward's money in stock in the Pottery Building and Savings company, and in the Federal Building and Loan company, both of East Liverpool. The guardian is also authorized to invest \$25 for the repair of certain property.

### Goes to Pacific Coast.

Lisbon, November 16.—(Special.)—James Sterling, son of Robert Sterling, who lives near Lisbon, left this morning for California, where he will spend six months or a year at different places in that state.

### Marriages Free—James Pickering

has received the document entitling him to the title of notary public for the K. T. & K. company. His shingle will read: "All stenographers and typewriters married free of charge."

### Taken to the Infirmary.

Lisbon, November 16.—(Special.)—Benjamin F. May, aged 76, of Perry township, who had his leg broken in a runaway Saturday evening, was taken to the county infirmary this morning.

### Sold Out At Lisbon.

Lisbon, November 16.—(Special.)—E. J. Henderson, who has been conducting a livery in the rear of the Hasbrouck hotel, has sold out to C. C. Hasbrouck, proprietor of the hotel. Mr. Henderson has returned to Salineville to resume the management of his livery barn in that town.

### Rummage Sale Will Continue.

The rummage sale, which the W. R. C. has so successfully conducted, will not close tonight, though the W. R. C. will then cease to take charge of it. It will be continued tomorrow under the auspices of the ladies' auxiliary of the Y. M. C. A. and all auxiliary ladies, or as many as possible, are requested to call at the sale rooms on Market street tomorrow afternoon to take part in the work or have a part assigned them. Meantime all who have articles to contribute to be sale are urged to bring them or to leave notice where they may be found.

## Those \$15 Suits for Stylish, Frugal Men

You wonder how we can dwell upon the subject constantly, yet, your wonder would cease if you would spend a day in this department and note the class of patrons we are pleasing. Each day there is something new—some invisible plaids and some new striped effects in dark grounds are worthy of your inspection. We claim they are as good as any merchant tailoring can produce at \$25. You should not doubt it until you have investigated, but we would not expect you to buy unless our statements are substantiated by facts. Investigation costs nothing—may save you much money.

## A Name Worth \$5,000 a Day

In 1889 P. T. Barnum, the great showman, journeyed to the Pacific coast to visit a relative. On his way back east he stopped at Kansas City to see the great Barnum & Bailey show. To the editors of the local dailies who called upon him Mr. Barnum said: "Gentlemen, Mr. Bailey tells me that my presence at the performances of the Barnum & Bailey circus is worth \$5,000 a day to the show. If this is true it is my name that is so valuable. It is known in every town, city and hamlet; it has become a household word throughout the country."

"Now, gentlemen, all of this was done by newspapers, and if advertising can make a name worth \$5,000 a day what is it that advertising can't do?"

You lose much of the value of your business reputation if you do not keep your name constantly before the public in our columns.

### HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

**Goes to Canada.**—Rev. Edwin Weary left today for Canada to conduct an eight-days' mission. Rev. Hely Maloney, of Lorain, will preach for him here next Sunday and will also conduct a missionary service Friday evening.

**New Time Table.**—A new time table will go into effect on the C. & P. main line and river division on November 29. The district passenger agents held a meeting in Pittsburg Saturday to determine the changes, which, it is thought, will not be many.

### Assisting in Revival.

Lisbon, November 16.—(Special).—Rev. G. W. Orcutt, of the M. E. church of East Palestine, will assist Rev. J. S. Secrist, in revival meeting, which are being held in the local church this week.

### Cough Gently.

Few people know how to cough properly. In fact, it never occurs to the ordinary individual that there are a right way and a wrong way of doing it. Yet it is a matter of no small importance. If every sigh means a drop of blood out of the heart, as people say, every cough means more or less proportion of time knocked off one's life. Most people cough as loudly and forcibly as they can. Some chronic coughers seem a bit proud of the terrible noise they make. But it is a rather costly noise, for the simple reason that it tears and inflames the lungs.

The lungs consist of an extraordinarily delicate spongelike tissue, which sometimes gets inflamed and choked with phlegm. When we try to get rid of this substance we cough. But, obviously, if we remove it violently we must necessarily injure the delicate lung tissue. Therefore train yourself to cough as gently as possible. After a little practice you will find it quite easy to do so. In that way you will do a minimum of mischief to the lungs and add years to your life.

### Plant Misers.

All leaf buds, whether underground or on the bare branches of winter, are plant savings put aside from the superfluity of summer against the proverbial rainy day. The starch of which such organisms consist is to the plant what his savings are to the prudent man, and the common potato is one of the greatest misers of the vegetable world in this respect, for almost the whole of the tuber is made up of starch food, left as a legacy to the young plants represented by the "eyes." This is true of all plants that grow from bulbs.

Some go further, for they run a savings bank in the shape of a taproot, which, if left undisturbed, grows larger year by year, to be drawn upon in seasons of drought when other means of subsistence are exhausted. Among these are primroses, carrots, beetroots and turnips, and with these three last this faculty of saving has been developed by man to make the plants a source of profit to himself.

### DEATH BRINGS RELIEF

her death she suffered intense agony. Death came as a relief to her, and though a promising young life was blotted out, all who witnessed her terrible suffering were grateful for her deliverance from misery.

**Carried a Live Shark Ashore.** Jonathan Fowler, a Massachusetts fisherman, once walked out knee deep through the mud and filth of a sea-shore at low tide to a shark left by the retreating waters, shouldered it and brought it alive on his back to the shore. The shark weighed 500 pounds, quite a load, considering that it was not the most portable of articles and that the man had to wade through mud.

**Simply Useful. That's All.** "Yes," said Mrs. Wordsworth, "the family is most interesting. John dances divinely. Tom sings like an angel. David is a famous footballer. Susanna paints with great taste."

"And Henry?"

"Oh, Henry! Well, he's a rather dull sort of a fellow, you know. He only works and supports the others."—Chicago Journal.

**Classified.** "Here's an account of a big landslide," said the news reporter. "Under what head shall I put it?"

"Put it with the real estate transfers," said the city editor, as he wrote "Continued on the forty-fourth page" in the middle of a four line paragraph.

### A WOMAN HUMORIST.

Miss Carolyn Wells, the Writer of "Clever," "Nonsense."

Carolyn Wells, the writer of popular books, whose quaint conceits in verse and prose have attracted the most favorable notice of both the public and reviewers, is one of the cleverest of the few women who do really humorous work.

Miss Wells is young, attractive and vivacious, interested in many things besides authorship and is somewhat fond of society. She lives with her people at Rahway, N. J., near enough to New York to enable her to keep in touch with the editors and publishers, with whom her productions are in demand.

The latest work of Miss Wells is a burlesque historical novel entitled "Abeniki Caldwell." In writing this work the author has apparently had a

MISS CAROLYN WELLS.

lot of fun. The average historical novel of the last few years has been absurd in its stilted language and its mock incredible feats. Miss Wells has carried these features to extremes and has jumbled together a plot, containing an adventure in every chapter, that makes an ordinary historical romance seem tame by contrast.

Miss Wells' humor—her quaint way of looking at commonplace things—is a natural gift. Her felicity of phrase has been, of course, in a large measure acquired. The great charm of her work lies in the fact that she is full of surprises. One never knows just what is coming next. She began writing in 1895, contributing to the magazines. Among her most popular works are "At the Sign of the Sphinx," "Folly in the Forest" and an "Anthology of Nonsense Rhymes." Miss Wells works easily and gathers the ideas for her jingles and stories from the most unexpected quarters; consequently she is very prolific. She insists that she is in no sense "literary." Her favorite word in either reading or writing is "nonsense."

### The First Wedding Ring.

The wedding ring, according to Henry Swinburne of the seventeenth century, was first designed by Prometheus and fashioned out of adamant and iron by Tubal Cain. He says that it was "given by Adam to his son to this end—that therewith he should espouse a wife." Men were, as all women know, deceivers ever, and some of these unscrupulous creatures were wont to wed with rings made of rushes, imagining them to be less binding than a strong and valuable ring. The bishop of Salisbury, however, stepped in and forbade this practice in 1217.

Silver was more frequently used than gold for wedding rings, and they were made in all kinds of shapes, some twisted, like two joined hands, or a pair of hearts stuck together with an arrow. Often they were adorned with precious stones and had "posies"—that is, scraps of verse—inscribed, such as: Fortune doth send you, hap it well or ill. This plain gold ring to wed you to my will.

Life is a calculation; the happy man is he whose calculation is correct.—Cleoppy.

**Would Not Be Noticed.** Applicant—Yes, madam, I wish to secure board, but I must inform you that I am a vegetarian, madam.

Mrs. Slimdick—Oh, that will be all right. You will not be expected to eat the meat. None of the others ever do.

## HIGH SCHOOL TEAM SUFFERED DEFEAT

BEATEN BY STEUBENVILLE SCHOOL ELEVEN, 17 TO 0.

Game Well Played And the Locals Well Satisfied With Their Treatment.

The East Liverpool high school football team met its first defeat of the season Saturday at the hands of the Steubenville high school team, at the latter city, the score being 17 to 0. The Steubenville boys won the game on merit, the local players speaking in the highest terms of the treatment they received. The game was fairly conducted and there was not the slightest cause for complaint.

The local eleven was not in the best of condition, however, with two of the regulars, Viney and Thompson, out of the game with injuries. The line was weak and suffered before the superb interference of their opponents. The several big gains made by Steubenville show how completely the line was broken.

Steubenville kicked off to Gaston, who made 5 yards. Mountford bucked the line for three yards and on the next scrimmage there was a fumble between center and quarter. Mountford could not quite make the gain for the third down and the ball went to Steubenville. On three end runs for big gains, Steubenville took the ball over for a touchdown and kicked goal. Mountford kicked to Steubenville and the ball was fumbled on their 30-yard line. Smith and Mountford took the ball to Steubenville's 10-yard line. Smith went through tackle with the man, but fumbled and Steubenville took it the entire length of the field for a touch down and kicked goal.

Steubenville kicked off of bounds and Mountford then kicked off. Steubenville's left half was sent around the left end for a touchdown. The goal kick failed, leaving the final score 17 to 0.

Steubenville will play a return game here next Friday at the West End park and the local team is confident of turning the tables.

## INSTRUCTIONS GIVEN TO BUSINESS AGENT

Business Association Held a Short But Important Meeting Today.

The business association held a short session at the Lewis Bros.' establishment this morning, the principal object being to give instruction to the new agent, L. C. Cooper, who will represent the association in all its undertakings.

The collector was given his instructions to the minutest detail and the carrying out of the work laid down will now remain entirely with him. He entered immediately upon his duties with the following office hours to govern: 11 to 12 a. m.; 1 to 2 and 5 to 6 p. m.

### Lost Several Days.

Lisbon, November 16.—(Special).—Edward Aldrich, the Salem man who had been in jail a few days on an insanity charge, was taken into probate court Saturday afternoon and it being clear he had recovered from his attack, which was due to excessive drinking, he was released. He said he remembered nothing of his experience for several days.

### New Church to Be Dedicated.

### HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

**Goes to Canada.**—Rev. Edwin Weary left today for Canada to conduct an eight-days' mission. Rev. Hely Maloney, of Lorain, will preach for him here next Sunday and will also conduct a missionary service Friday evening.

**New Time Table.**—A new time table will go into effect on the C. & P. main line and river division on November 29. The district passenger agents held a meeting in Pittsburgh Saturday to determine the changes, which, it is thought, will not be many.

### Assisting in Revival.

Lisbon, November 16.—(Special).—Rev. G. W. Orcutt, of the M. E. church of East Palestine, will assist Rev. J. S. Secrist, in revival meeting, which are being held in the local church this week.

### Cough Gently.

Few people know how to cough properly. In fact, it never occurs to the ordinary individual that there are a right way and a wrong way of doing it. Yet it is a matter of no small importance. If every sigh means a drop of blood out of the heart, as people say, every cough means some greater or less proportion of time knocked off one's life. Most people cough as loudly and forcibly as they can. Some chronic coughers seem a bit proud of the terrible noise they make. But it is a rather costly noise, for the simple reason that it tears and inflames the lungs.

The lungs consist of an extraordinarily delicate spongelike tissue, which sometimes gets inflamed and choked with phlegm. When we try to get rid of this substance we cough. But, obviously, if we remove it violently we must necessarily injure the delicate lung tissue. Therefore train yourself to cough as gently as possible. After a little practice you will find it quite easy to do so. In that way you will do a minimum of mischief to the lungs and add years to your life.

### Plant Misers.

All leaf buds, whether underground or on the bare branches of winter, are plant savings put aside from the superfluity of summer against the proverbial rainy day. The starch of which such organisms consist is to the plant what his savings are to the prudent man, and the common potato is one of the greatest misers of the vegetable world in this respect, for almost the whole of the tuber is made up of starch food, left as a legacy to the young plants represented by the "eyes." This is true of all plants that grow from bulbs.

Some go further, for they run a savings bank in the shape of a taproot, which, if left undisturbed, grows larger year by year, to be drawn upon in seasons of drought when other means of subsistence are exhausted. Among these are primroses, carrots, beetroot and turnips, and with these three last this faculty of saving has been developed by man to make the plants a source of profit to himself.

### DEATH BRINGS RELIEF

her death she suffered intense agony. Death came as a relief to her, and though a promising young life was blotted out, all who witnessed her terrible suffering were grateful for her deliverance from misery.

The ill-fated girl is survived by two sisters and a brother as follows: Mrs. Peter Milliron, of Market street, this city; Mrs. Cora Lasseter, of California, and Columbus, of Wellsville.

**Carried a Live Shark Ashore.** Jonathan Fowler, a Massachusetts fisherman, once walked out knee deep through the mud and filth of a sea-shore at low tide to a shark left by the retiring waters, shouldered it and brought it alive on his back to the shore. The shark weighed 500 pounds, quite a load, considering that it was not the most portable of articles and that the man had to wade through mud.

**Simply Useful, That's All.** "Yes," said Mrs. Wordsworth, "the family is most interesting. John dances divinely, Tom sings like an angel, David is a famous footballer, Susanna paints with great taste."

**Classified.** "Here's an account of a big landslide," said the new reporter. "Under what head shall I put it?" "Put it with the real estate transfers," said the city editor, as he wrote "Continued on the forty-fourth page" in the middle of a four line paragraph.

**Not So Quiet.** Mrs. Muggins—Your husband dresses rather quietly, doesn't he? Mrs. Buggins—Humph! You ought to hear him sometimes when he can't find his collar button!—Philadelphia Record.

### A WOMAN HUMORIST.

**Miss Carolyn Wells, the Writer of "Clever Nonsense."**

Carolyn Wells, the writer of popular books, whose quaint conceits in verse and prose have attracted the most favorable notice of both the public and reviewers, is one of the cleverest of the few women who do really humorous work.

Miss Wells is young, attractive and vivacious, interested in many things besides authorship and is somewhat fond of society. She lives with her people at Rahway, N. J., near enough to New York to enable her to keep in touch with the editors and publishers, with whom her productions are in demand.

The latest work of Miss Wells is a burlesque historical novel entitled "Abenaki Caldwell." In writing this work the author has apparently had a

lot of fun. The average historical novel of the last few years has been absurd in its stilted language and its mock incredible feats. Miss Wells has carried these features to extremes and has jumbled together a plot, containing an adventure in every chapter, that makes an ordinary historical romance seem tame by contrast.

Miss Wells' humor—her quaint way of looking at commonplace things—is a natural gift. Her felicity of phrase has been, of course, in a large measure acquired. The great charm of her work lies in the fact that she is full of surprises. One never knows just what is coming next. She began writing in 1885, contributing to the magazines. Among her most popular works are "At the Sign of the Sphinx," "Folly in the Forest" and an "Anthology of Nonsense Rhymes." Miss Wells works easily and gathers the ideas for her jingles and stories from the most unexpected quarters; consequently she is very prolific. She insists that she is in no sense "literary." Her favorite word in either reading or writing is "nonsense."

### The First Wedding Ring.

The wedding ring, according to Henry Swinburne of the seventeenth century, was first designed by Prometheus and fashioned out of adamant and iron by Tubal Cain. He says that it was "given by Adam to his son to this end—that therewith he should espouse a wife." Men were, as all women know, deceivers ever, and some of these unscrupulous creatures were wont to wed with rings made of rushes, imagining them to be less binding than a strong and valuable ring. The bishop of Salisbury, however, stepped in and forbade this practice in 1217.

Silver was more frequently used than gold for wedding rings, and they were made in all kinds of shapes, some twisted, like two joined hands, or a pair of hearts stuck together with an arrow. Often they were adorned with precious stones and had "posies"—that is, scraps of verse—inside, such as:

Fortune doth send you, hap it well or ill,  
This plain gold ring to wed you to your will.

Life is a calculation; the happy man is he whose calculation is correct.—Clepppy.

### Would Not Be Noticed.

Applicant—Yes, madam, I wish to secure board, but I must inform you that I am a vegetarian, madam.

Mrs. Slumder—Oh, that will be all right. You will not be expected to eat the meat. None of the others ever do.

## HIGH SCHOOL TEAM SUFFERED DEFEAT

BEATEN BY STEUBENVILLE SCHOOL ELEVEN, 17 TO 0.

Game Well Played And the Locals Well Satisfied With Their Treatment.

The East Liverpool high school football team met its first defeat of the season Saturday at the hands of the Steubenville high school team, at the latter city, the score being 17 to 0. The Steubenville boys won the game on merit, the local players speaking in the highest terms of the treatment they received. The game was fairly conducted and there was not the slightest cause for complaint.

The local eleven was not in the best of condition, however, with two of the regulars, Viney and Thompson, out of the game with injuries. The line was weak and suffered before the superb interference of their opponents. The several big gains made by Steubenville show how completely the line was broken.

Steubenville kicked off to Gaston, who made 5 yards. Mountford bucked the line for three yards and on the next scrimmage there was a fumble between center and quarter. Mountford could not quite make the gain for the third down and the ball went to Steubenville. On three end runs for big gains, Steubenville took the ball over for a touchdown and kicked goal.

Mountford kicked to Steubenville and the ball was fumbled on their 30-yard line. Smith and Mountford took the ball to Steubenville's 10-yard line. Smith went through tackle with the man, but fumbled and Steubenville took it the entire length of the field for a touch down and kicked goal.

Steubenville kicked out of bounds and Mountford then kicked off. Steubenville's left half was sent around the left end for a touchdown. The goal kick failed, leaving the final score 17 to 0.

Steubenville will play a return game here next Friday at the West End park and the local team is confident of turning the tables.

## INSTRUCTIONS GIVEN TO BUSINESS AGENT

Business Association Held a Short But Important Meeting Today.

The business association held a short session at the Lewis Bros.' establishment this morning, the principal object being to give instruction to the new agent, L. C. Cooper, who will represent the association in all its undertakings.

The collector was given his instructions to the minutest detail and the carrying out of the work laid down will now remain entirely with him. He entered immediately upon his duties with the following office hours to govern: 11 to 12 a. m.; 1 to 2 and 5 to 6 p. m.

### Lost Several Days.

Lisbon, November 16.—(Special).—Edward Aldrich, the Salem man who had been in jail a few days on an insanity charge, was taken into probate court Saturday afternoon and it being clear he had recovered from his attack, which was due to excessive drinking, he was released. He said he remembered nothing of his experience for several days.

### New Church to Be Dedicated.

Lisbon, November 16.—(Special).—John A. Rodgers, an elder in the local Presbyterian church, went to Youngstown this morning to take part in the dedication of the new church, built for Rev. D. S. Evans, the well known Presbyterian minister in that city.

Guaranteed to cure any cough. Will cure the worst case of croup in a few minutes. Cures sore throat and ulcerated tonsils and the only thing on earth that cures asthma. Brazilian Balm is not a new preparation, but has been on the market for 15 years, and is recommended by all druggists and physicians.

### LODGE STARTS WELL

New Tribe of Ben Hur Started in Chester With 42 Charter Members.

Thirty members of the Ben Hur tribe, Star of the Valley, No. 13, of Wellsville, visited Chester Saturday night accompanied by their team and instituted the new tribe of Ben Hur Rock Springs circle No. 14, of Chester. There were 23 charter members inducted into the mysteries of the order, and have 42 applications yet pending, which will afford a large amount of work each meeting night yet to come for the winter.

Many other visitors were present from the Ben Hur tribes of the East End, East Liverpool, Irondale and other points. The lodge starts off on a most satisfactory basis.

The instituting work was done by Deputy Supreme Chief C. S. Greer and J. W. Hamilton, both of Wheeling. The meeting was held in the Mercer hall.

The new lodge will be known as Rock Springs court No. 14 and the prospects for a successful organization are of the best. The following officers were elected: Chief, W. C. Johnston; past chief, Mrs. Florence Kilgore; judge, E. S. Good; scribe, Bertha Johnston; keeper of funds, J. E. Webster; captain, J. D. Finley; guide, Fred Smedberg.

A delegation from the new court will attend a meeting of Pan-American court this evening, and on Saturday night the team from the latter lodge will come to Chester for the purpose of initiating the new members.

### Authorized to Invest.

Lisbon, November 16.—(Special).—Lillie M. Thompson, as guardian of George M. Thompson, of East Liverpool, has been authorized to invest \$2,000 of her ward's money in stock in the Potters Building and Savings company, and in the Federal Building and Loan company, both of East Liverpool. The guardian is also authorized to invest \$25 for the repair of certain property.

### Goes to Pacific Coast.

Lisbon, November 16.—(Special).—James Sterling, son of Robert Sterling, who lives near Lisbon, left this morning for California, where he will spend six months or a year at different places in that state.

### Marriages Free—James Pickering

has received the document entitling him to the title of notary public for the K. T. & K. company. His shingle will read: "All stenographers and typewriters married free of charge."

### Taken to the Infirmary.

Lisbon, November 16.—(Special).—Benjamin F. May, aged 76, of Perry township, who had his leg broken in a runaway Saturday evening, was taken to the county infirmary this morning.

### Sold Out At Lisbon.

Lisbon, November 16.—(Special).—E. J. Henderson, who has been conducting a livery in the rear of the Hasbrouck hotel, has sold out to C. C. Hasbrouck, proprietor of the hotel. Mr. Henderson has returned to Salineville to resume the management of his livery barn in that town.

### Rummage Sale Will Continue.

The rummage sale, which the W. R. C. has so successfully conducted, will not close tonight, though the W. R. C. will then cease to take charge of it. It will be continued tomorrow under the auspices of the ladies' auxiliary of the Y. M. C. A. and all auxiliary ladies, or as many as possible, are requested to call at the sale rooms on Market street tomorrow afternoon to take part in the work or have a part assigned them. Meantime all who have articles to contribute to the sale are urged to bring them or to leave notice where they may be found.

## Those \$15 Suits for Stylish, Frugal Men

You wonder how we can dwell upon the subject constantly, yet, your wonder would cease if you would spend a day in this department and note the class of patrons we are pleasing. Each day there is something new—some invisible plaids and some new striped effects in dark grounds are worthy of your inspection. We claim they are as good as any merchant tailoring can produce at \$25. You should not doubt it until you have investigated, but we would not expect you to buy unless our statements are substantiated by facts. Investigation costs nothing—may save you much money.

## A Name Worth \$5,000 a Day

In 1889 P. T. Barnum, the great showman, journeyed to the Pacific coast to visit a relative. On his way back east he stopped at Kansas City to see the great Barnum & Bailey show. To the editors of the local dailies who called upon him Mr. Barnum said: "Gentlemen, Mr. Bailey tells me that my presence at the performances of the Barnum & Bailey circus is worth \$5,000 a day to the show. If this is true it is my name that is so valuable. It is known in every town, city and hamlet; it has become a household word throughout the country."

"Now, gentlemen, all of this was done by newspapers, and if advertising can make a name worth \$5,000 a day what is it that advertising can't do?"

You lose much of the value of your business reputation if you do not keep your name constantly before the public in our columns.

You'll admire our fancy shirts, 50c and \$1, at the "Hub."
